"WALL" WITH FLY.

Flies complete, but without poles, half the price of tents of corresponding size.

A NEW TRICK.

A new device, to us, came to our notice a few days since. We learned that some of our competitors, among them a very large mail order house, were advertising Covers and Paulins, and to make it appear that they were all right, the weight of each cover was appended, this seemed straight and above board, but on examination it was found that the weights given for a 10-oz. Paulin was only the weight of one of our 8-oz. Paulins, so that although the Paulin weighed what it was advertised, it was not as heavy duck as it was marked by 20 per cent. Merchants and customers who are not on to this kind of work, think sometimes when they get our prices that we are high, but on examination we are found to be right every time, unless there has been a mistake made, which is possible.

We guarantee our goods to be as marked.

STILL ANOTHER.

A large and valued customer of ours wrote us a short time since, that he was offered covers "Weight guaranteed same exactly as yours," for such and such a price, which was considerable below ours. We answered we would be much obliged, if he would procure some of those covers and weigh them, and advise us of the results. Later we received the following: "B & L. Mfg. Co., Gentlemen:—Referring to yours of Nov. 12th, we ordered some of the Wagon Covers, as we advised you we would, to determine about weights, etc., and we find they fall short in weight sufficiently, we think, to cover difference in price. While goods are branded 10-oz., they are in reality only 8-oz., and we certainly do not approve of this or any other method of deception to secure business." Yours truly.

The above speaks for itself. We are glad to say that we know of some of our competitors and customers who do as they advertise and we honor them.

Moral: Deal with Those Who Go In For THE Square Deal.

You Need a Wash, Take One.

These are they which have washed their robes and made them white in the blood of the Lamb. Therefore are they before the throne of God.—Rev. 7:14-15.

Blessed are they that wash their robes in the Lamb, that their right may be to the tree of life.—Rev. 24:14. (Douay Bible.)

Tent Fly Used as a Sun Shade at a Picnic.

BEWARE OF KLEPTOMANIACS.

A Latin proverb says: "An evil gain is equal to a loss." An English proverb says: "Honesty is the best policy." And a Bible proverb says: "A poor man is better than a liar." These sayings have been proved to be true in connection with selling and buying of Light Weight and Small Size Tents, Covers, Paulins, etc. The manufacturer who started to make an evil gain by using 7-oz. duck and marking it 8-oz., and using 9-oz. for 10-oz. to get ahead of his competitor, and to cheat his customer, soon found that his competitor was on to his racket, and was using 6-oz. and marking it 8-oz. and 8-oz. for 10-oz. and 10-oz. for 12-oz. Then, to be still ahead of his opponent, he had to cut his covers so small that they would not cover, and his tents so small they made discontent among the users, against the manufacturer who made them, and the dealers who sold them. Some tents are made so small and low that the only way they can be used, if you want to stand up in them, is by putting boards around the walls to increase their height. The manufacturers are nearly all doing this, and they try farther to deceive the dealers and users by having two or three grades with a different discount for each grade, calling the best grade "Standard," Full Weight," etc. But it will be found on examination that nearly all of these so-called "Full Weight" and "Standard" goods are small and light. We are writing this for the information of our customers, not for our own benefit. At first this swindling did hinder our sales, but the public have found out where to get goods that they can depend on being what they are called, and things are coming our way in a manner that is very satisfactory to us.

We append the weights of a few of the principal Wagon Covers and Tents. So if you are interested you can put them on the scales and see if you have the weight you paid for.

Grading Scene.

TO RAILROAD CONTRACTORS AND GRADERS.

For a number of years we have been making a speciality of Stable, Commissary, Sleeping and Boarding Tents, for Railroad Contractors. As listed in the previous pages. We have thoroughly competent Cutters, Stitchers and Splicers who have large experience in this kind of work. We put double side guys and turned and ironed stakes at every side pole. Buckles and straps at the doors. Heavy end guys and blocks and tackles for stretching the ridge. Everything made to stand the wear, tear and wind. All first-class and up-to-date. Size and quality as ordered.

THE SQUARE DEAL OR THE DEAL OUT OF SQUARE WHICH?

We received a letter of complaint from a railroad contractor—a good and valued customer—stating that we had charged him \$74.00 for a small stable that he has just bought of us; also that he had bought one of the same size, weight and quality, which was 12-oz. Army with 10-oz. double filling duck walls, for \$65.00. Our customer was about 200 miles away, but we sent a representative to see him, and he found that the other tent was made of 12-oz. double filling duck marked “Army” in the top, and 8-oz. single filling in the walls, and was worth, according to our figuring, about \$61.00. Also our customer admitted that the workmanship in our tent was much the best. By the way, our customer had a wall tent that he had bought at the same time of our competitor for 12-oz. Army duck that was made of 12-oz. single filling Magnolia duck.

If our price—quality, weight and workmanship considered—is not right, we will make it right.

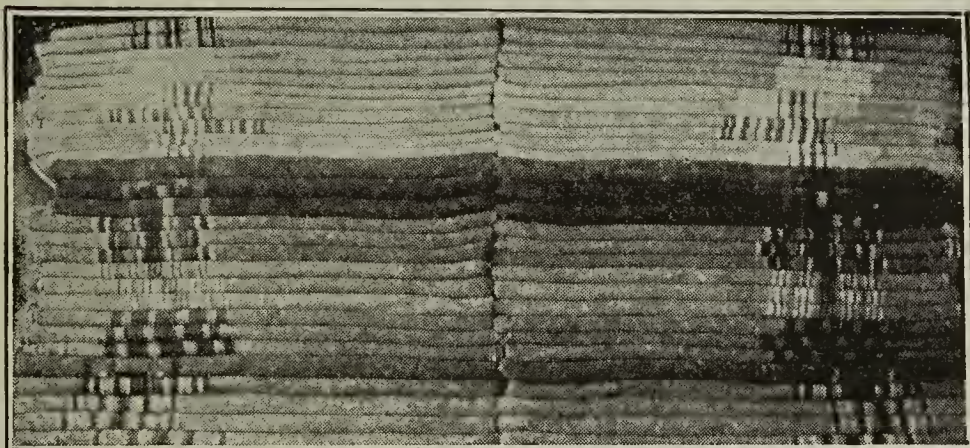

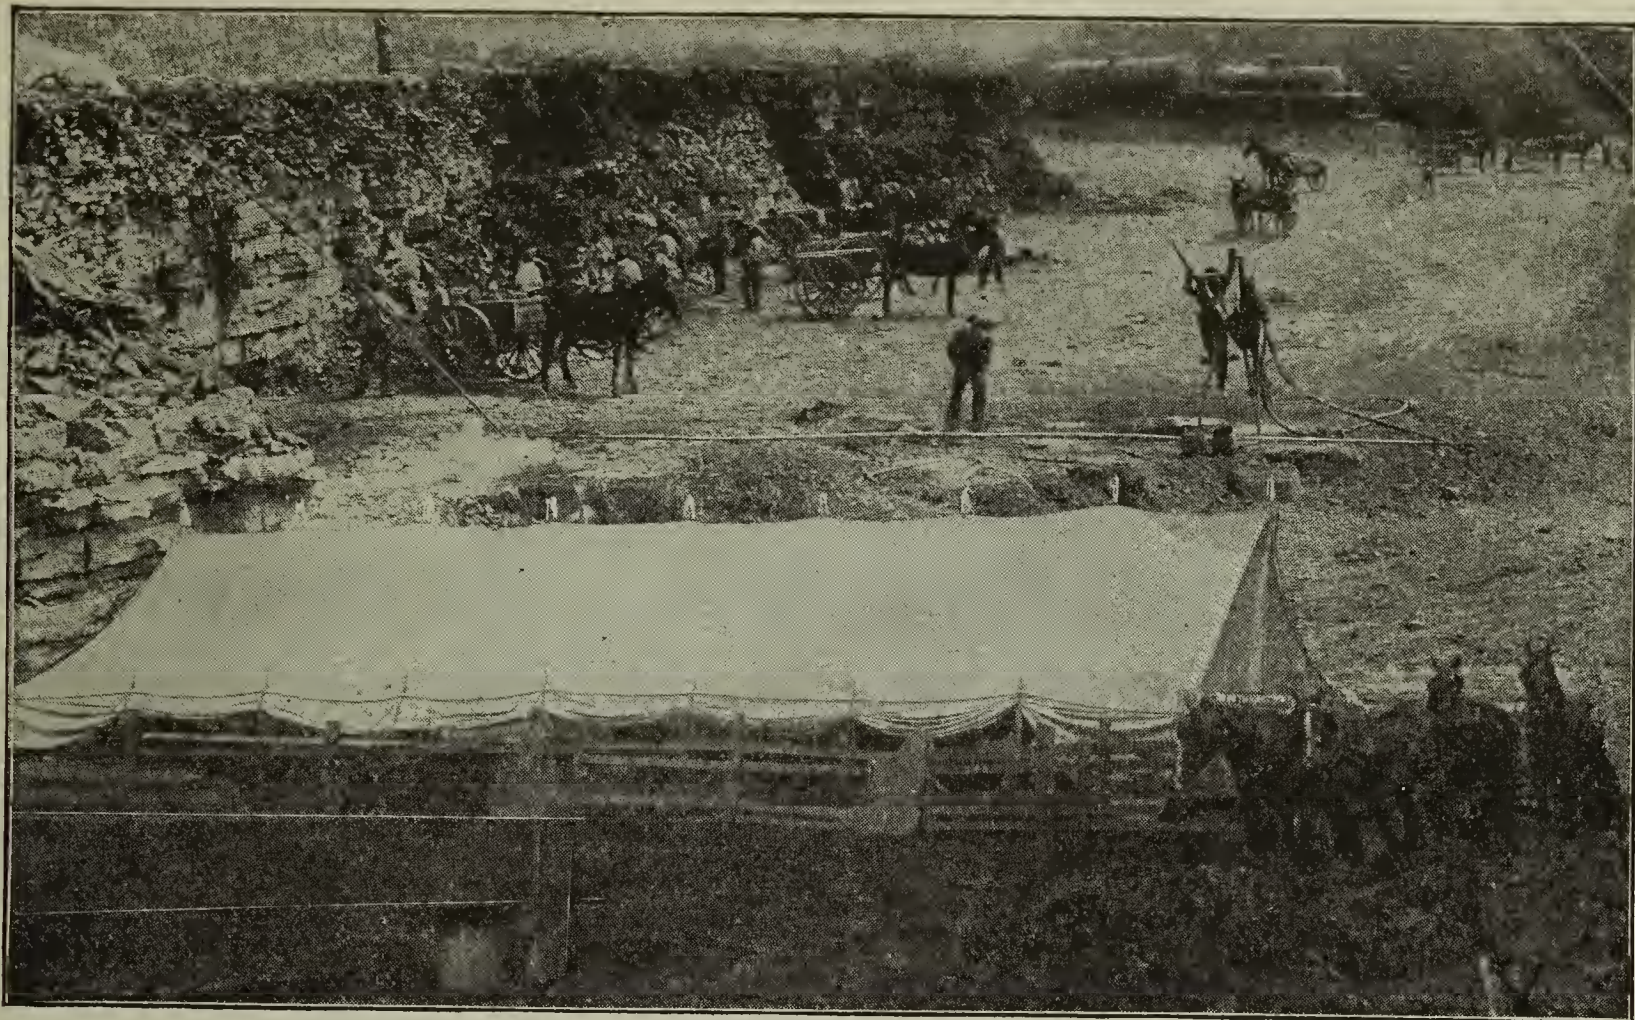

FLY WEIGHED MORE THAN THE TENT.

A railroad contractor, customer of ours, called at our office and told us an interesting story, to the effect, that lately he had written to us for the price on a wall tent to be made of 10-oz. Army duck. After he had got our price, a merchant of the town persuaded him that money could be saved by buying from a competitor, which was done; but instead of costing less, they found, on account of extra freight, etc., it cost \$2.00 more, and not only that, it was made of such poor and light goods that it would not turn water, so they ordered a fly from us and found that the 10-oz. fly actually weighed more than the tent.

Stop being swindled. Go in for the square deal.

Have You Heard The Good News?

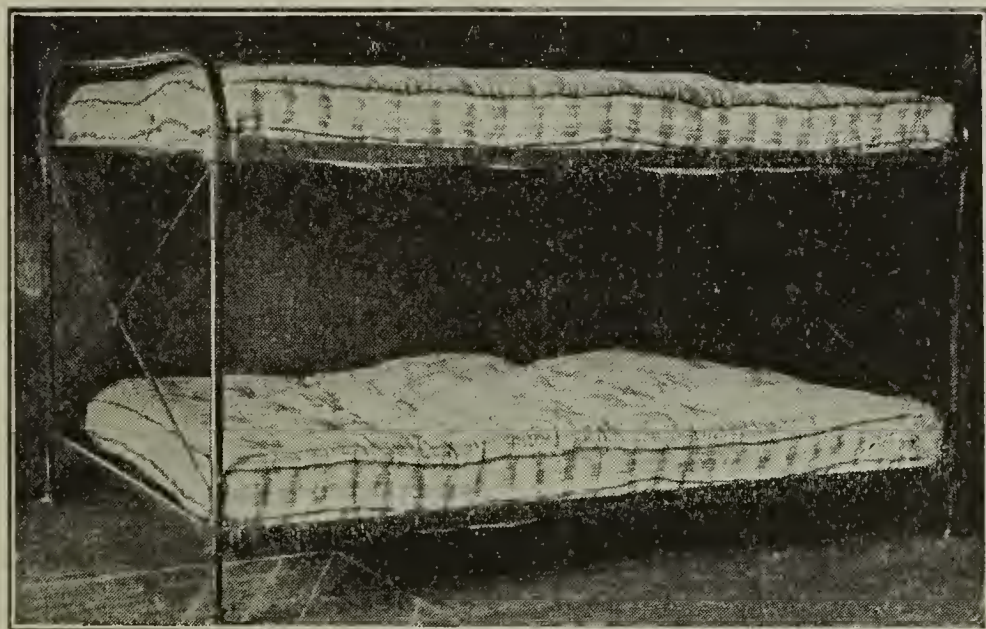

“Behold, I bring you good tidings of great joy, which shall be to all people. For unto you is born this day, in the city of David, a Saviour, which is Christ the Lord.”—Luke 2:10-11.

BED BLANKETS.

We make a specialty of Bed Blankets for Contractors at lowest market rates.

We have generally on hand second hand blankets, slightly used at some Reunion or Camp meeting that we can sell at reduced prices.

BUNKS.

We make to order for Contractors, Portable Double Deck, Double Beds for use in tents, made to use either wire mattresses or boards.

We also have single wire or canvas cots. Also single or double mattresses or pads for contractors 'use. Also make ticks to order for filling with hay, etc.

Please Excuse Me. Certainly, If You Wish.

A certain man made a great supper and bade many: and sent his servants to say Come; for all things are now ready. And they all with one consent began to make excuse.

The first said unto him—I pray thee have me excused. And another said, I pray thee have me excused. And another said,—I cannot come.

Then the master of the house being angry said,—None of those men which were bidden shall taste of my supper.—Luke 14:16-24.

Don't Fool Yourself, He Will Do As He Says.

"There shall come in the last day scoffers, saying, Where is the promise of His coming?
"The Lord is not slack concerning His promise,—but is long-suffering to us-ward, not willing that any should perish, but that all should come to repentance. But the day of the Lord will come as a thief in the night; in the which the heavens shall pass away with a great noise, and the elements shall melt with fervent heat. The earth also, and the works that are therein shall be burned up."—2 Peter 3:3, 4-9, 10.

Christ's Answer To An Important Question.

"Nicodemus saith unto Him, 'How can a man be born when he is old?' "—John 3:4.

"As Moses lifted up the serpent in the wilderness, even so must the Son of man be lifted up; that whosoever believeth in Him should not perish but have everlasting life: for God so loved the world, that He gave His only begotten son, that whosoever believeth in Him should not perish, but have everlasting life."—John 3:14-15-16.

Can You Answer the Question?

"God who at sundry times and in divers manners, spake in times past unto the fathers by the prophets, hath in these last days spoken unto us by His Son."—Hebrews 1:1.

"How shall we escape, if we neglect so great salvation; which at the first began to be spoken by the Lord?"—Hebrews 2:3.

Baker Five-Room Family Compartment Tent, 14x23½.
BAKER FAMILY COMPARTMENT TENTS.

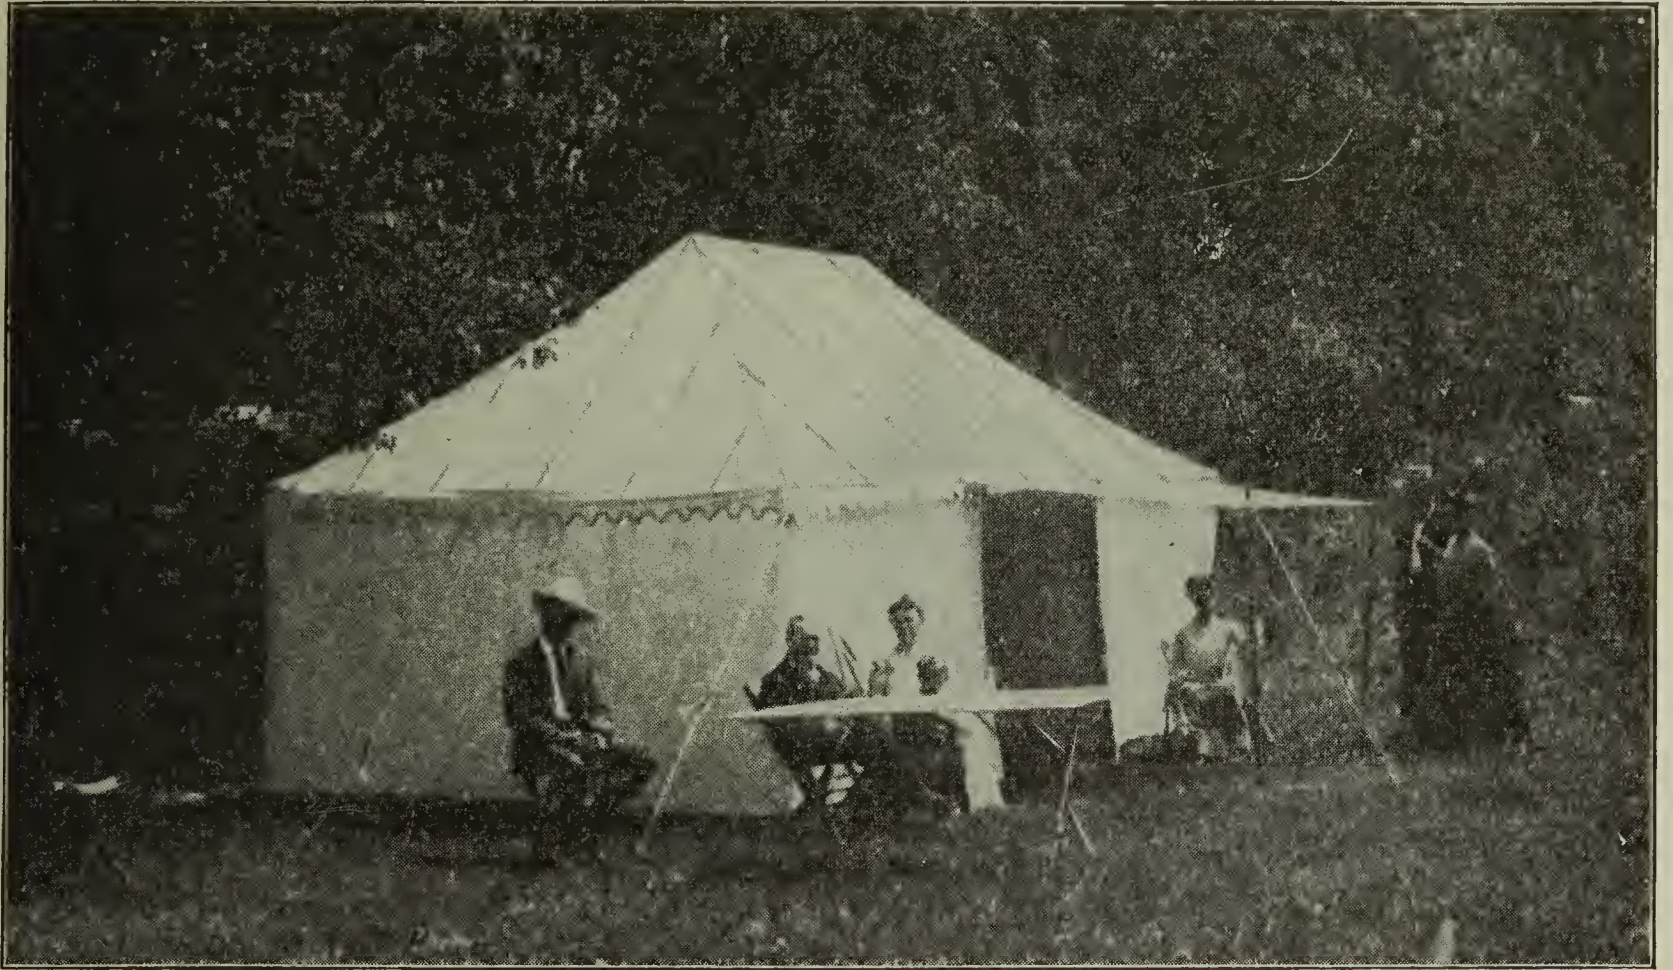

Divided into two or four bed rooms on sides and dining room in center. The awning principle in family tents is a great improvement for many reasons. It is not extra to the tent, but is simply a part of the wall lifted up to form an awning, instead of being drawn to one side. This gives free circulation of air through the tent, besides affording a beautiful shade. The walls of the bed rooms are made of sheeting, and are the same height as the walls of the tent. They are attached by rings to cords stretched from the center poles to the side poles.

If the top of tent were made of 12-ounce duck and the wall of 8-ounce duck, the cost would be the same as 10-ounce list.

Three-Room Baker Family Compartment Tent, 12x19 Feet.

Baker Family Compartment Tents.

Family Tent, 14x21½, with fly, 16x24 feet. By having double roof as above it makes it much cooler and insures waterproofness; also lasts much longer. These family tents are stylish, very roomy and comfortable, especially where there are gentlemen and ladies in a party. When anyone once uses this kind of tent for a party they seldom want to return to camping in wall tents. If fly is needed send for price.

Oblong Round End, 24x38 Ft. 7 Ft. Wall.

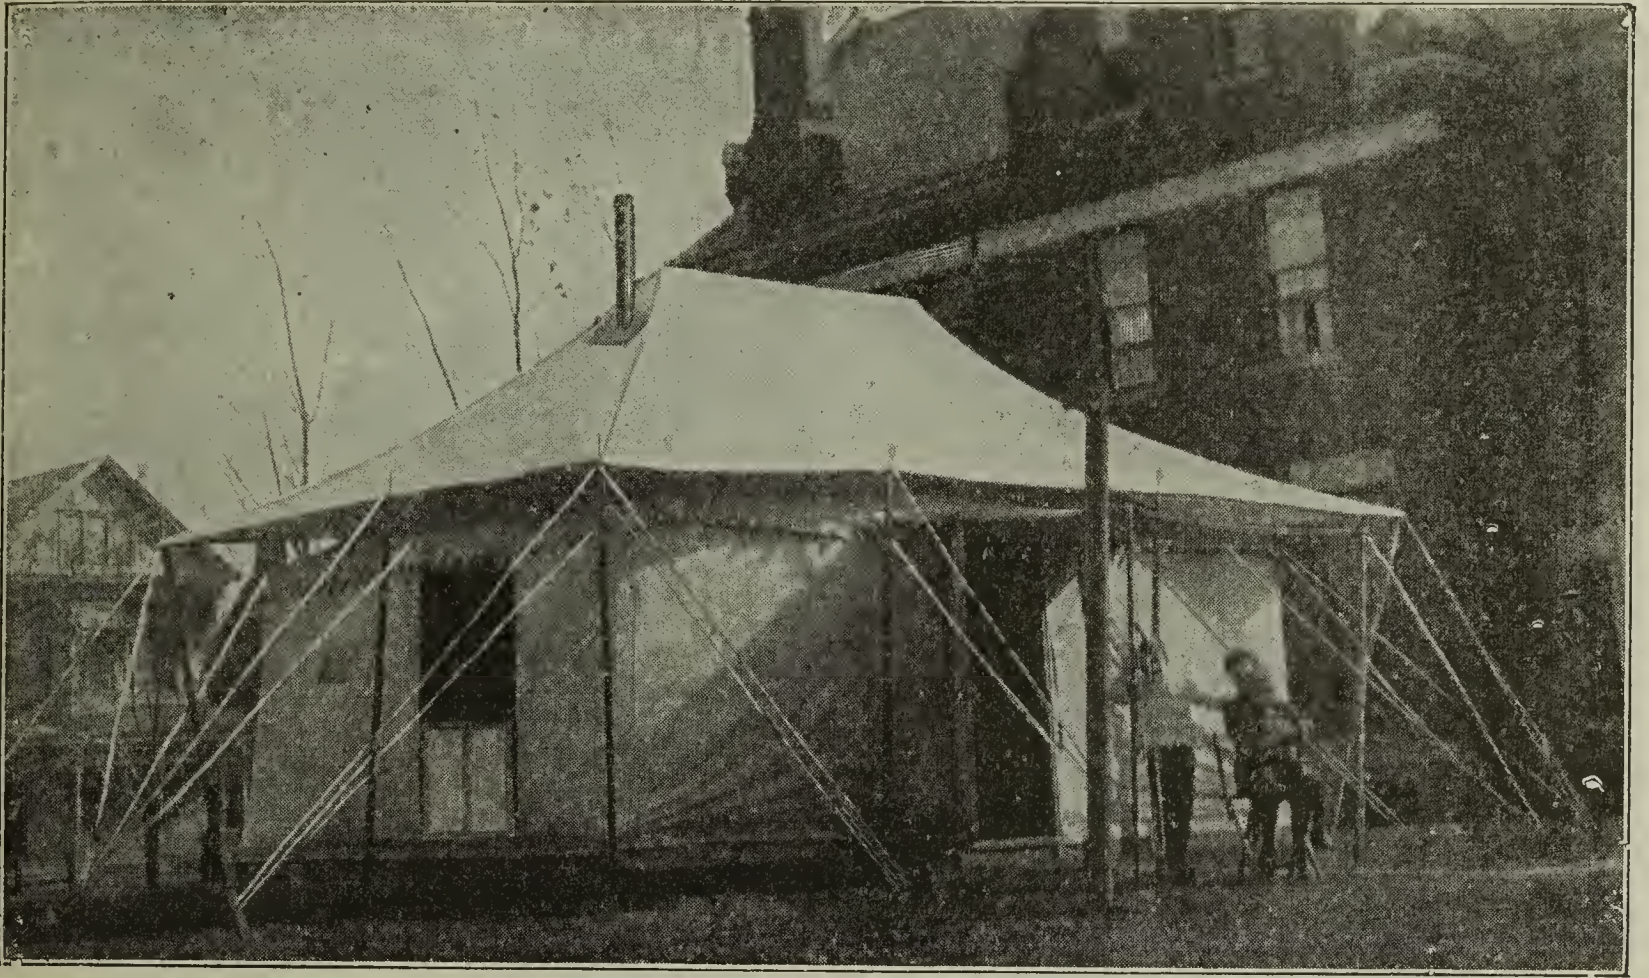

This is a very stylish, handsome tent. Top made of 10-ounce Army striped duck, wall of 8-oz. stripe duck trimmed with red duck inside and 2-inch red wool fringe around the border. Awnings back and front 14 feet wide and 7 feet deep, with walls to hook across each opening when awning is extended. This could be made into a "family" tent with four 12-foot quarter round bed rooms of red sheeting, and sitting or dining room 14x24 feet. Send for prices.

This would be exceedingly stylish, roomy and comfortable as a camping tent, and would be fine enough for the Headquarters Tent of a general of a K. of P., K. T. or G. A. R. encampment, or for President Roosevelt, General Kuroki or General Kuropatkin.

FOR HEALTH, HARMONY AND HAPPINESS GO CAMPING.

Salvation through Faith, Damnation through Unbelief.

"And if any man hear my words, and believe not, I judge him not: for I came not to judge the world, but to save the world. He that rejecteth Me, and receiveth not my words, hath one that judgeth him: the word that I have spoken, the same shall judge him in the last day."
—John 12:47, 48.

12x19 "BAKER" FAMILY TENT WITH FLY.

This is the old style Family Tent that we have given the above name to distinguish it. We believe this style of tent for Utility, Comfort, Convenience and style is the best tent yet devised. To anyone who is willing to go to a little expense for fitting, it is capable of treatment that makes it a model of comfort and elegance. It can be fitted with floor, fly, doors, stove, etc., as shown in above cut, so that it would make a comfortable and healthy residence for a family all the year round.

A 14 x 23½ tent, fitted as shown in cut, would be floored with 6-inch matched flooring on 2 x 4-inch joists; 12-inch board on edge all round, as shown in above cut. A 7 x 14 kitchen, with screen door, covered on the inside with roll-up curtain. Cook stove with pipe running through the roof, as shown. The cook stove would heat the whole tent in winter. There would be a 10 x 14 dining room across center of tent, and two 7 x 7 bed rooms at the other end. Then by having screen door at one or both ends of dining room, warmth, ventilation, comfort and freedom from flies or insects could be secured.

FOUND HEALTH IN TENT LIFE.

Camping Out in Summer an Octogenarian's Cure for Rheumatism.

From the New York World.

Pittsfield, Mass.—In the summer of 1878 Charles Erdman Leidbold, then a restaurateur, was invited to join a camping party of Civil War veterans who had spread tents on the shore of Onota Lake, near Pittsfield. He remained with the party all summer, going daily to his business in the city and became enamored of the life under canvas.

Next spring he bought a waterproof tent and put it up on his lawn, and there he has slept every night from May to October. Now, at the age of 80, he is entirely free from the ills that age usually brings.

"Just as soon as the grass becomes green, I hear the call for life out of doors," says Leidbold. "It's a part of my life, and I shall probably continue to camp out summers as long as I live. There is electricity and vigor from the earth. The confinement of sleeping indoors would be a hardship to me now. Years ago I contracted rheumatism during the winter months and I used dozens of bottles of liniment and all sorts of remedies. Just as soon as spring came round I pitched my tent and in fourteen days every twinge of pain was gone and I haven't had an attack since."

Mr. Leidbold's tent is within a few steps of his house. In it he has an ordinary bed, chairs and a lamp. The floor is the bare earth. He is up at five o'clock every morning, sometimes earlier, and works in his little garden, which provides him and his wife with all the vegetables they use the year around. He also grows pears and plums.

On May 1 this year, Mr. Leidbold pitched his tent for the 28th annual camp. During that time he has had five tents, which have cost him on an average \$28 each. He figures that in all he has paid out \$150 for tents and fixtures.

KANSAS CITY FAMILY TENT.

12 x 14, 6-foot Wall, with Two Rooms, each 7 x 12 feet. Covered with Fly, 14 x 16 feet.

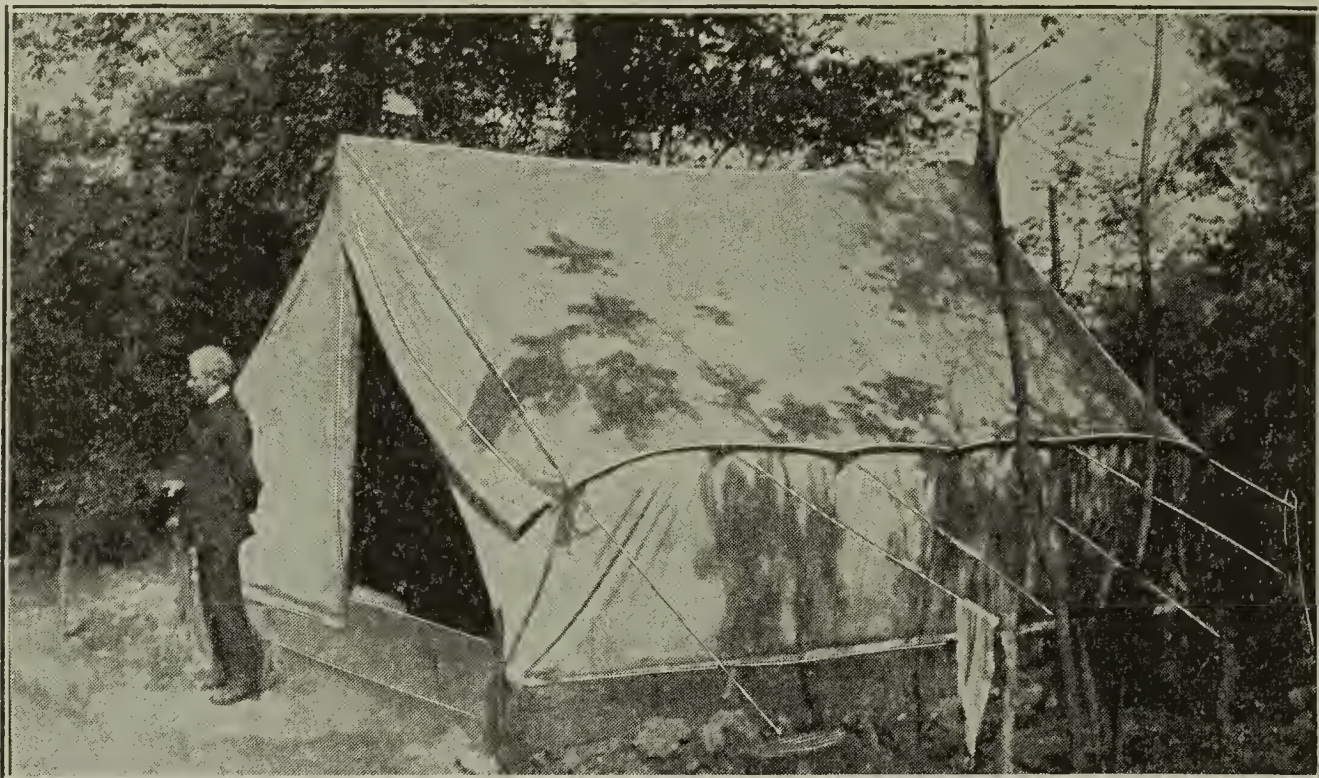

Fitted for Winter Bed Rooms.

This Tent is floored with 6-inch x 12-foot Yellow Pine on seven 2 x 4-inch x 14-foot joists, which raises the floor about four inches from the ground. 12-inch boards, on edge, are nailed to the floor all around, excepting the notch for the door. A door frame is made six feet high, fitted with mosquito door, with lock and key. The wall at door is folded back and the canvas is tacked to the door frame with galvanized tacks or small wire staples. Also the bottom of the wall is tacked to the board all around with the wall outside the board. A piece of duck is tacked on bottom half of door, and piece on top half is made to roll up, for ventilation, or to close down, with eyelets and carriage knobs. Also a small ventilator is made in the top of tent, which can be opened or closed from the inside with cords. The back door of the tent is sewn up temporarily for winter use.

Also, as shown in cut, there is one window each side of tent, 12x 20-inch, of transparent celluloid, with small shutters on the inside of tent to cover them. This makes a Wind and Waterproof Tent, and is comfortable and very healthy to sleep in, even in very cold weather, as shown by articles from various sources in this circular. Stovepipe holes could be put in the tent, as shown in cut on previous page, and the Stovepipe holes could be put in the tent, and the tent heated with a stove, or an oil stove could be used.

The floor, door, windows, ventilator and fly are all extra to the tent, and are spoken of here to show how a tent can be made Air and Waterproof, Convenient and Comfortable at comparatively small expense.

HIGH PRAISE FOR TENT LIFE AND DIETING IN THE CURE OF CONSUMPTION.

THE OTTAWA TENT COLONY.

A Few Remarks on the Work Done and Being Done in this Institution.

By J. W. Pettit, M. D., Ottawa, Ill.

The success thus far attained in the Ottawa Tent Colony for the treatment of tuberculosis has placed the enterprise well beyond the experimental stage. Sufficient time has not yet elapsed to report any cures, but the results have been fully equal to those obtained in the same length of time in other sanatoria. No fact in medicine is better established than that climate per se is an unimportant factor in the treatment of pulmonary tuberculosis. It has been amply demonstrated that consumption can be cured in any climate. The success of the Ottawa Tent Colony is only another object lesson which goes to prove the futility of the claim that a change of climate is necessary for a cure in tuberculosis. The Colony was opened July 1, 1904, with two patients. The number admitted during the first month was ten, the second month seventeen, third month ten, fifth month twelve, making the total number of admissions fifty-nine. Of this number, twenty-four were advanced cases, many of whom were in an apparently hopeless condition. Several of these remained only a few days. Of the total number of advanced cases (some of whom are still taking treatment) six were improved and three are convalescent. The remainder of the cases have nearly all made substantial improvement. Only four cases in the incipient stage of the disease have been admitted. These all made remarkable improvement from the very beginning of the treatment.

Evidences of Improvement.

The following are some of the gains in weight, which may be accepted as one of the most marked evidences of improvement: One far advanced case, whose weight on admission was 84 pounds gained 30 pounds in 140 days. Another of the same class, whose weight on admission was 103 pounds, twenty-four pounds in eighty-five days. An incipient case, thirty-nine pounds in forty-four days. Another incipient case, thirteen pounds in twenty-one days. A second stage case, ten pounds in ten days. Another, sixteen pounds in twenty-eight days. It is nothing unusual for patients who are doing well to gain

from four to six pounds a week during the early part of the treatment. Several patients have gone beyond their normal weight from six to ten pounds. The average gain for all patients has been two and one-fifth pounds per week. These results will compare favorably with those obtained elsewhere and certainly prove beyond all doubt that the contention of the medical profession, that tuberculosis can be cured in Illinois, is correct.

Essentials of the Treatment.

The treatment is out-of-door life, a carefully selected diet, regulation of exercise and medication for the improved nutrition. Each patient is expected to take three quarts of milk and six raw eggs a day in addition to the three regular meals. The results of tent life may be thus briefly summarized: The appetite increases; nutrition improves; cough decreases; night sweats cease; sleep improves; weight increases; temperature falls; tendency to take cold diminishes; respiration improves, and the pulse rate is reduced. A marked improvement has been observed in all stages of the disease, but in early cases the results are most satisfactory. The patients for the most part are cheerful and contented with their surroundings. As a rule, they accept uncomplainingly the primitive life which the treatment imposes.

Climate Not the Important Factor.

"Consumption can be cured in Illinois. * * * It is pure air and sunshine and not a particular climate which is the essential factor in the treatment of consumption, and it is further noted that the cures of consumption accomplished in the home climate in which the patients remain are more lasting and more assured than when cures have been attained by temporary residence elsewhere. * * * More recoveries have been shown to have taken place in the Massachusetts State Hospital for Consumptives at Rutland, with its rigorous winters, its moderate elevation (1,050 feet), its greater rainfall and prevalence of cloudy days, than at the United States Army Sanatorium at Fort Bayard, New Mexico, where all of the conditions of elevation (6,000 feet), mild climate, dry atmosphere, moderate rainfall and almost constant sunshine are found, serving to indicate that some moisture in the air is perhaps not so injurious as was formerly supposed."—Illinois State Board of Health

Extracts Eulogizing the Tent in the Treatment of Tuberculosis.

DR. H. M. THOMAS, OF CHICAGO, SOUNDS A WARNING AT OTTAWA, ILL.

Oxygen reduces fever, aids digestion, gives refreshing sleep and heals the lungs. There is much fear of breathing night air. What other air is there to breathe at night but night air? Pure night air is healthful. Impure night air breeds disease. Breathe we must. There is but one choice, pure or impure night air.

What are the sources of impure air? Mainly the home and workshop. Tuberculosis is a house disease; it depends upon the home for implantation, growth, maturity and propagation. The house is the granary of the bacillus. Houses of one kind and another are the ordinary means of spreading tuberculosis. The house is the most frequent means and the shop or office the next. This is so because it takes prolonged intimate contact with a person, place or thing that has been intensely contaminated with tuberculosis matter to give rise to implantation. Probably three-fourths of all cases of tuberculosis conveyed from person to person are contracted in the home and one-fourth due to shop or office environment.

If we are to be saved from tuberculosis, we are to breathe pure air 24 hours out of 24.—Address delivered at Ottawa, Ill., Aug. 22d, 1904.

OPEN AIR TREATMENT CURES NEBRASKA WOMAN OF CONSUMPTION.

(Special Dispatch to the Enquirer.)

Norfolk, Neb., Feb. 12.—Sleeping every night and living every day in the open air throughout the present winter, the severest Nebraska has ever known, Mrs. A. J. Salem, of this city, has been cured of consumption, and since October 1 has gained forty pounds in weight. Last summer physicians told Mrs. Salem that she had tuberculosis. She then weighed 118 pounds. She realized that her case required heroic treatment. She was a firm believer in the curative properties of fresh air, so she set up a little tent on the grounds surrounding her home, and ever since September has slept and lived in it. Within the last month the temperature has dropped to 35 degrees below zero, and most of the time it has been below zero, but despite the bitter cold Mrs. Salem has slept in her tent every night and spent most of her days there. She has had no fire, simply putting on extra wraps when she felt cold. Every night just before retiring she has bathed in ice cold water, and then rubbed herself down with a coarse towel. She says she does not now feel the severest cold when she is warmly clad. Her physicians say she is out of danger.

THE GREAT WHITE SCOURGE—ITS EXTENT AND COST.

(Rockford Morning Star, April 2, 1905.)

Eight million out of 75,000,000 people in the United States die of consumption.

Tuberculosis is a communicable scourge, but is not a contagious one in the sense that smallpox is.

Two women to every man die of the scourge in the United States.

Dark rooms, overcrowded flats, no sunlight, indoor work amid unsanitary surroundings, occupying a place where an unsanitary consumptive has lived, are the chief causes of the scourge.

The danger in a consumptive relative or friend is made null by the burning of the sputum and the care of the patient on sanitary lines.

The treatment for tuberculosis is simple. It consists of sitting for hours at a time in the open air and sunlight, well bundled up, and sleeping in open tents or in rooms where the windows are open; drinking plenty of milk and eating many eggs and much nourishing food; bathing daily.

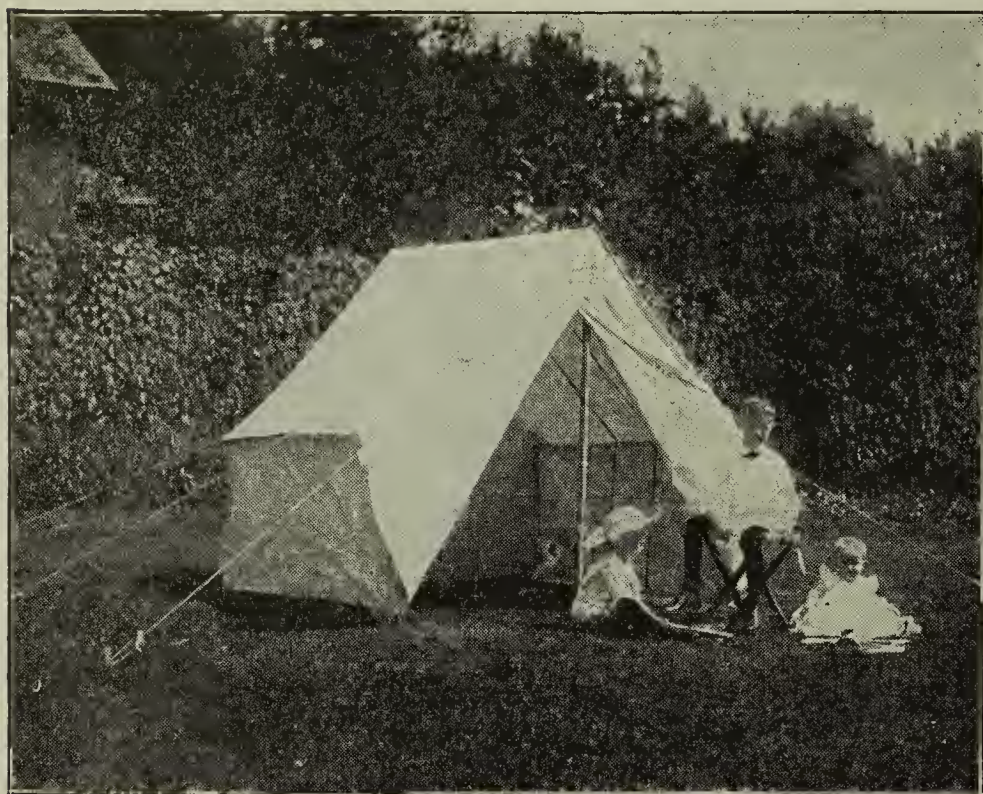

Any part of America, or anywhere else, can give these cardinal facilities of a "cure." In middle Massachusetts there are many cures where the climate is of necessity bad. Thirty-eight per cent are cured by the fresh-air treatment here.

In the Saranac Lake region of the Adirondacks, and in fact all through the Adirondacks, the percentage of cures is about forty.

Arizona, New Mexico, Florida and North Carolina, and, in fact, all through the South and Southwest, the cure percentage is about forty per cent. This is the average all over America.

"Tuberculosis can be successfully treated anywhere. Climate has practically nothing to do with the matter. Formerly climate was looked upon as the most important factor in the production of tuberculosis, consequently it was also looked upon as the most important factor in the treatment. For many men it is difficult, even at the present time, to give up these ideas. It has been demonstrated, however, by practical tests that the disease can be successfully treated anywhere. * * * All that is necessary is life in the open air, proper food, well regulated and carefully disciplined conduct, and, in more advanced cases, properly directed rest and exercise."

Showmen will notice that the Prices, Weights and Dimensions of Round Tents listed on this page and of Oblong Round End Tents on the next page, do not apply to show tents. These have less wall and are often made of much heavier goods, and are constructed in a different way from Show Tents.

Are You Saved or Lost?

God sent not His Son into the world to condemn the world; but that the world through Him might be saved.—John 2:17.
“He that believeth on the Son hath everlasting life; and he that believeth not the Son shall not see life; but the wrath of God abideth on him.”—John 3:36.

"And by Him all that believe are justified from all things."—Acts 13:39.

GOSPEL TABERNACLES.

Inside of Gospel Tent, 80x125; seated with 400 of our Canvas Seat Benches; see next page.
 A "Woman Only" lecture.

To Evangelists and Preachers:

For over thirty years we have made a specialty of the manufacture of Gospel Tents, and have learned by long experience what is needed in their construction, and we think we make Tabernacles that are not excelled anywhere and seldom equaled. In speaking with an evangelist from New York City last fall, who had used our tents for 25 years, he said: "In going about the country I am always interested in Gospel Tents, and never miss an opportunity to examine them when I see one, and I never find any other make that equals yours. There are points of excellence and a finish, fit and style about your tents that I have never found with other makes."

Unless otherwise ordered we rope all of our Gospel Tents from eave to ridge every third cloth around the eave and on the ridge. When they are over 50 feet wide, we put a canvas and rope band midway around the top.

We would warn prospective buyers against the practice which is very general of substituting double filling and even single filling duck in place of army duck in the tops of tents. We lose many orders this way, because our patrons think the price is too high. We very seldom see or hear of a Gospel Tent, outside of our own make, with genuine army duck in the top. Single or double filling duck is good enough for the walls, but we always recommend army duck in the tops. It will be noticed that we do not even list single filling duck in our "Round" and "Oblong Round End" Gospel Tents. Why? Because we know that they are unsatisfactory to the users.

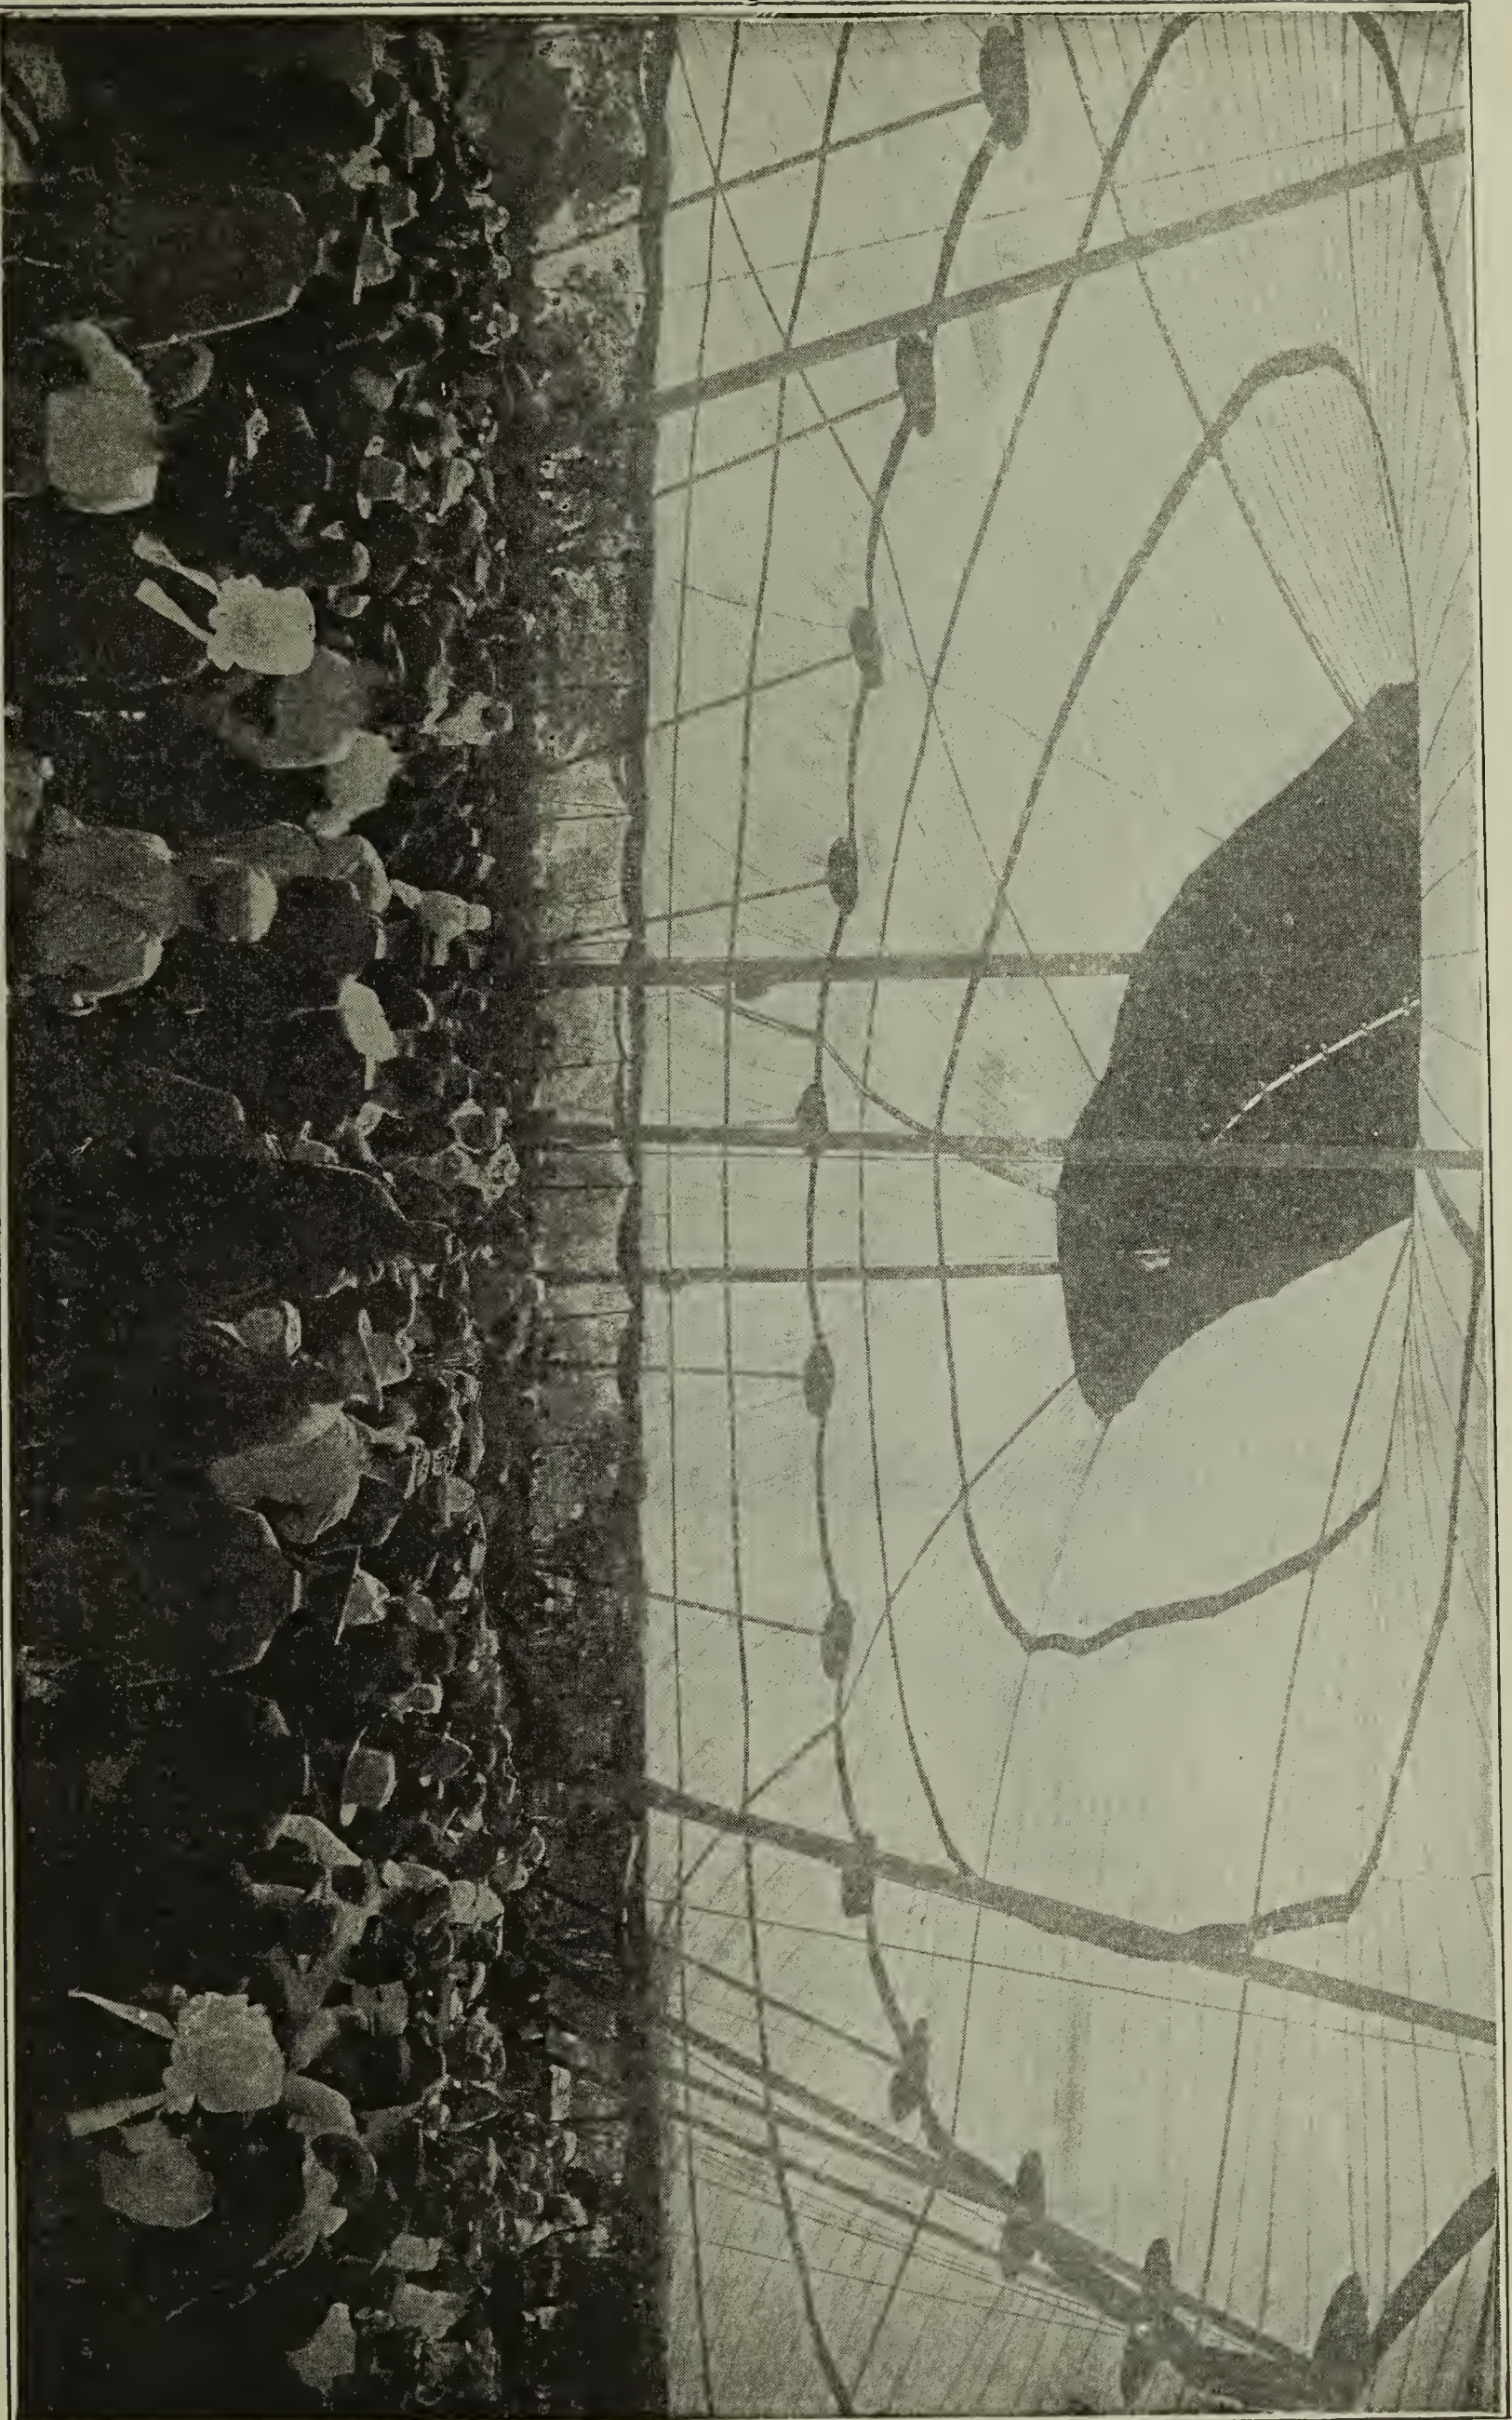

If you want a Tabernacle, let us figure with you.

Good and Medium Second-Hand Gospel Tents for sale cheap, while they last. See pages in back of this catalogue.

Which Road are you Traveling?

"Wide is the gate and broad is the way that leadeth to destruction, and many there be which go in thereat.

"Straight is the gate and narrow is the way that leadeth unto life and few there be that find it."—Matthew 7:13-14.

CANVAS SEAT BENCH No. 47.

This seat is designed for meeting tents, public halls, or any place where it is intended to seat a number of persons. It has a strong frame and heavy canvas seat, which makes a comfortable and economical seat, much preferable to the common wooden bench. It folds together for convenience of storage or transportation. We have improved this seat and reduced the price of it from \$1.75 to \$1.50 each, net. At this price there is nothing to compare with it as a cheap, strong and portable seat for tents, halls, or outer gatherings. Anyone needing a large number of seats should examine it. It will be found more comfortable and much preferable to chairs for large assemblies.

Salvation by Faith.

Therefore by the deeds of the law there shall no flesh be justified in His sight: for by the law is the knowledge of sin.—Romans 3:20.

Therefore we conclude that a man is justified by faith without the deeds of the law.—Rom. 3:28.

LOAD OF CANVAS SEAT BENCHES.

Containing 130 benches, showing their ease of transportation and portability, which is an important item when seats have to be moved from place to place, as with Gospel Tents.

To those who may need temporary accommodations for entertainments of any kind, we frequently find that people are ignorant of the fact that we rent tents seated to almost any capacity. For instance, two months since we sent a tent 125x225, with 1,000 of these benches to seat 5,000 people, with a man to superintend the erection, etc., 270 miles into the country to be used for three days' concerts for the Banda Rosa.

We have also circus amphitheatre seats for sale or rent and tents large enough to seat 15,000 people under one tent, which could be sent to any part of the country.

The Only Way to Escape the Judgment.

"It is appointed unto men once to die, but after this the judgment."—Hebrews 9:27.

"Jesus said, 'Verily, verily, I say unto you, He that heareth my word, and believeth Him that sent me, hath eternal life, and cometh not into judgment, but hath passed out of death into life.'—John 5:24. R. V.

"And this is life eternal, that they might know thee the only true God, and Jesus Christ, whom thou hast sent."—John 17:13.

Where Are You Going?

"These shall GO AWAY into everlasting punishment; but the righteous into life eternal."—Matthew 25:46.

"Blessed is the man that walketh not in the counsel of the ungodly, nor standeth in the way of sinners, nor sitteth in the seat of the scornful, but his delight is in the law of the Lord; and in His law doth he meditate day and night. And he shall be like a tree planted by the rivers of water that bringeth forth his fruit in his season, his leaf also shall not wither and whatsoever he doeth shall prosper."—Psalm 1:1-3.

Tent Tops Paraffined to Order.

BUFFALO BILL'S ARENA.

Size about 350x500 feet.

This is a hollow square with canvas sheds on sides with seats for spectators. This is an excellent arrangement where large space is required, such as Wild West Shows, Bicycle, Automobile, Foot, Chariot or Horse Races, Polo, Foot Ball, Base Ball, Cricket Games, etc., etc. This idea can be contracted or expanded and made more or less expensive, and to cover more or less space, by having the seats only on one or two sides like a grand stand, and the rest of the enclosure made with canvas walls.

Estimates given on this kind of work, or on enclosures for Medicine Men, etc.

Give Us a Chance to Figure With You.

We can please you in Price, Quality and Workmanship. Send for estimates.

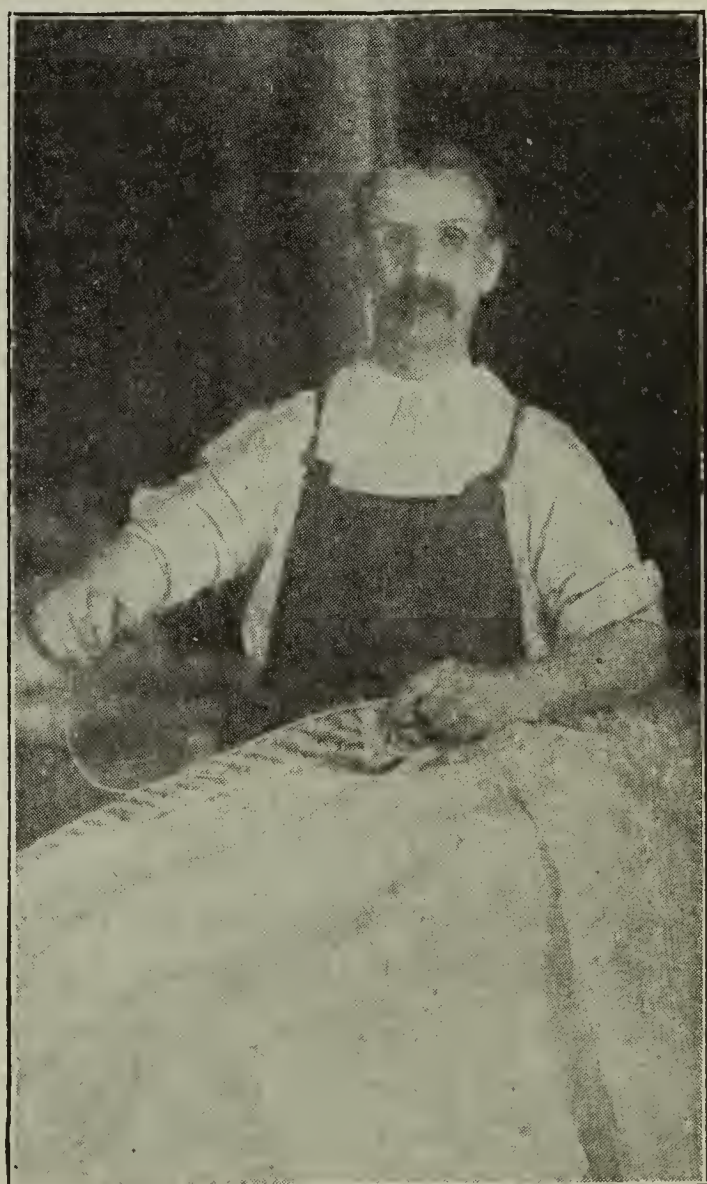

To Show Proprietors

We wish to call the attention of Circus and Show Managers who are not acquainted with us to the facilities we have for manufacturing anything in the way of Show tents, large or small, light or heavy. We have one of the largest, if not the largest, and best equipped tent factories in the United States. We had a seventeen-year apprenticeship and have since been in the business for thirty-five years on our own account. We believe we can refer to any who have dealt with us, as to our ability and character for square dealing.

As a customer wrote a few days since when sending an order: "We are sending this order to you because we know we will get first-class tents." Another, in ordering for the first time, from a distant part of the country, says: "We know you have a national reputation for making first-class tents."

Let us figure with you and if our figures are right, give us a trial order. We guarantee our work. If it is not right, we will make it right.

As to Our Ability and Reliability

to handle large jobs, we have a factory second to none in the country, fitted with up-to-date machinery. We have foremen, cutters, machine and hand stitchers, ropers and splicers that are thoroughly competent in their several departments.

In our cutting rooms we cut up on an average five miles of cloth every working day in the year.

We have our own carpenter shop where we make our tent poles, seats, camp furniture, etc., in which we use up between three and four hundred thousand feet of lumber annually, principally into tent poles.

We also have our own blacksmith's shop where we make bail rings, irons for masts, etc. We are incorporated for \$200,000, fully paid up, so are able as well as willing to back up our promise to make good anything that is not according to contract.

Tell us what you want and if our figures are right, try us, and see what we can do.

Do you need Palms, Needles, Wax, Rope or Cloth for repairs on your Tents? or parts to fix your Kidd Lights, or Gasoline Torches, Cotton or Wool Bunting to make or fix Flags? Send us the order.
NO ORDER TOO SMALL FOR OUR BEST ATTENTION.

Do you need an entirely new outfit from Hippodrome to Dressing Room Tops? and from a new set of Cage Covers, to Jumping Ticks? We can make them.
NO ORDER TOO LARGE FOR OUR CAPACITY.

Are You Saved or Perishing?

"For the preaching of the cross is to them that Perish foolishness; but unto us which Are Saved it is the power of God."—1 Corinthians 1:18.

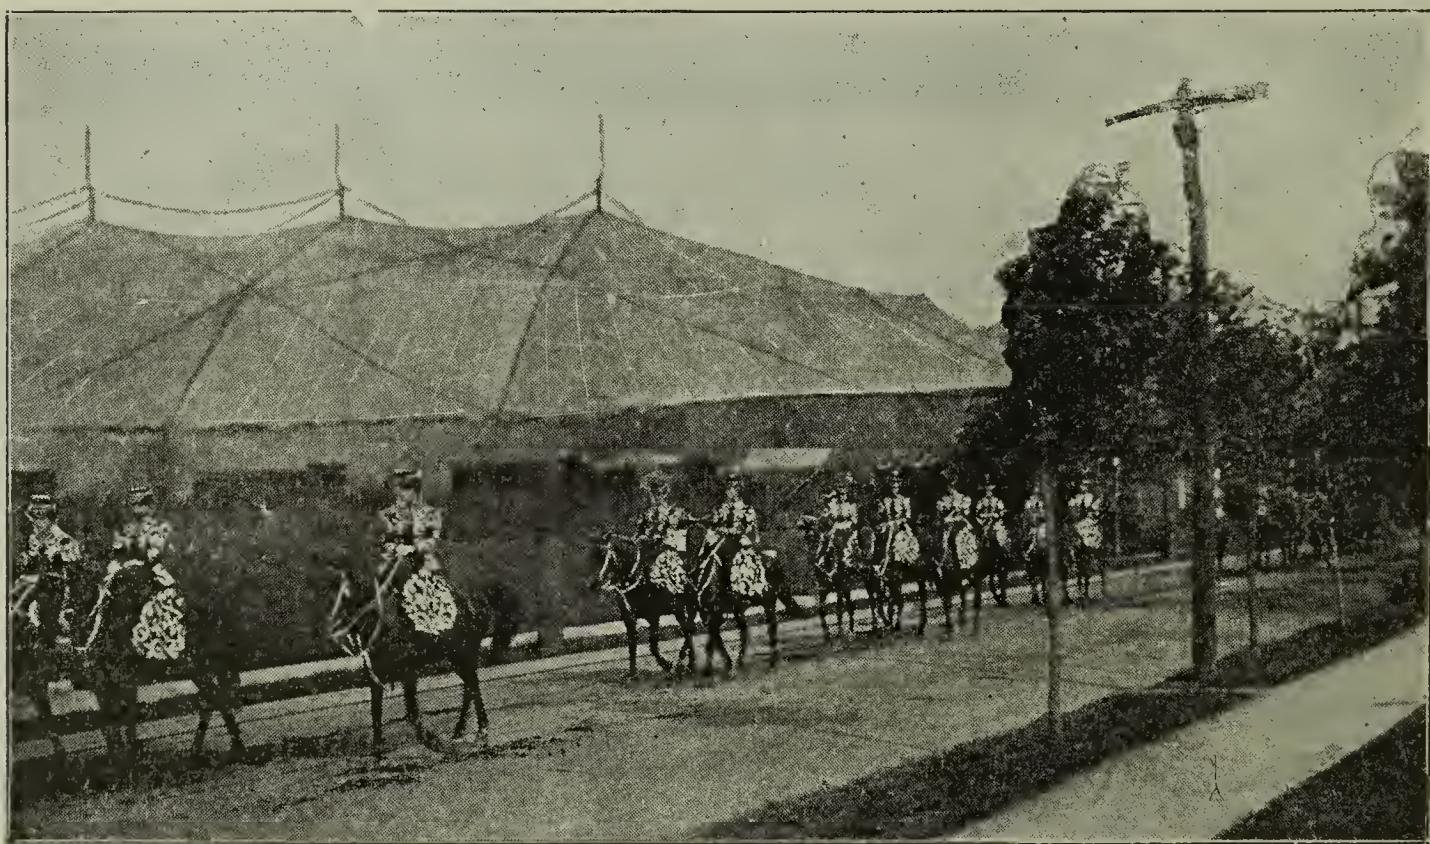

"And Jesus said unto them, I am the bread of life; he that cometh to Me shall never hunger; and he that believeth on Me shall never thirst."—John 6:35.

"There shall come in the last day Scoffers,—saying, Where is the promise of His coming? But the day of the Lord will come as a thief in the night, in which the heavens shall pass away with a great noise and the elements shall melt with fervent heat; the earth also, and the works that are therein shall be burned up."—2 Peter 3:3-10.

"The law was our schoolmaster unto Christ that we might be justified by faith. But after that faith is come, we are no longer under a schoolmaster. For ye are all the children of God by faith in Christ Jesus."—Galatians 3:24-26.

Hippodrome and Circus Tops. Any Size. Send for Prices.

Look Out! Danger Ahead.

"Because there is wrath, beware lest He take thee away with his stroke, then a great ransom cannot deliver thee."—Job 36:18.

He is gracious unto him, and saith; Deliver him from going down to the pit; I have found a ransom.—Job 33:24.

Are You Lost?

"If our Gospel be hid, it is hid to them that are lost."—2 Corinthians 4:3.

"The Son of Man is come to seek and to save that which was lost."—Luke 19:10.

"They that were ready went in with him to the marriage; and the door was shut. Afterward came also the other virgins, saying, Lord, Lord, open unto us. But He answered and said, Verily I say unto you, I know you not."—Matt. 25:10-12.

There Is No Other One to Go To.

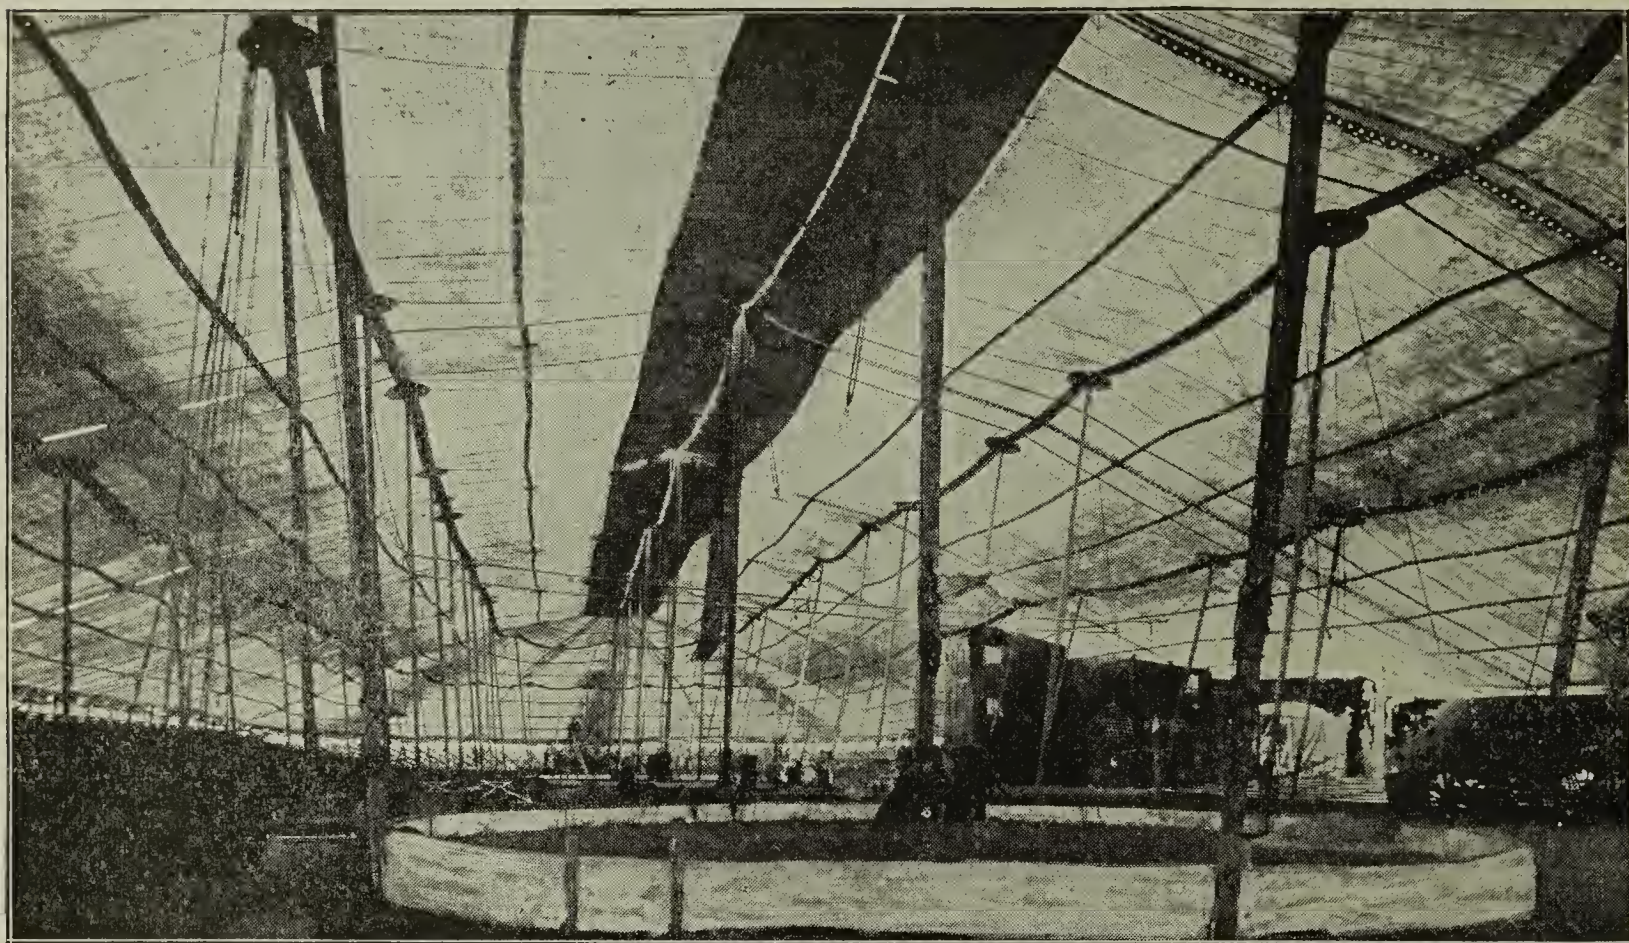

"Then Simon Peter answered him, Lord, to whom shall we go? thou hast the words of eternal life. And we believe and are sure that thou art that Christ, the Son of the living God."—John 6:68-69.

You Need a Rest.

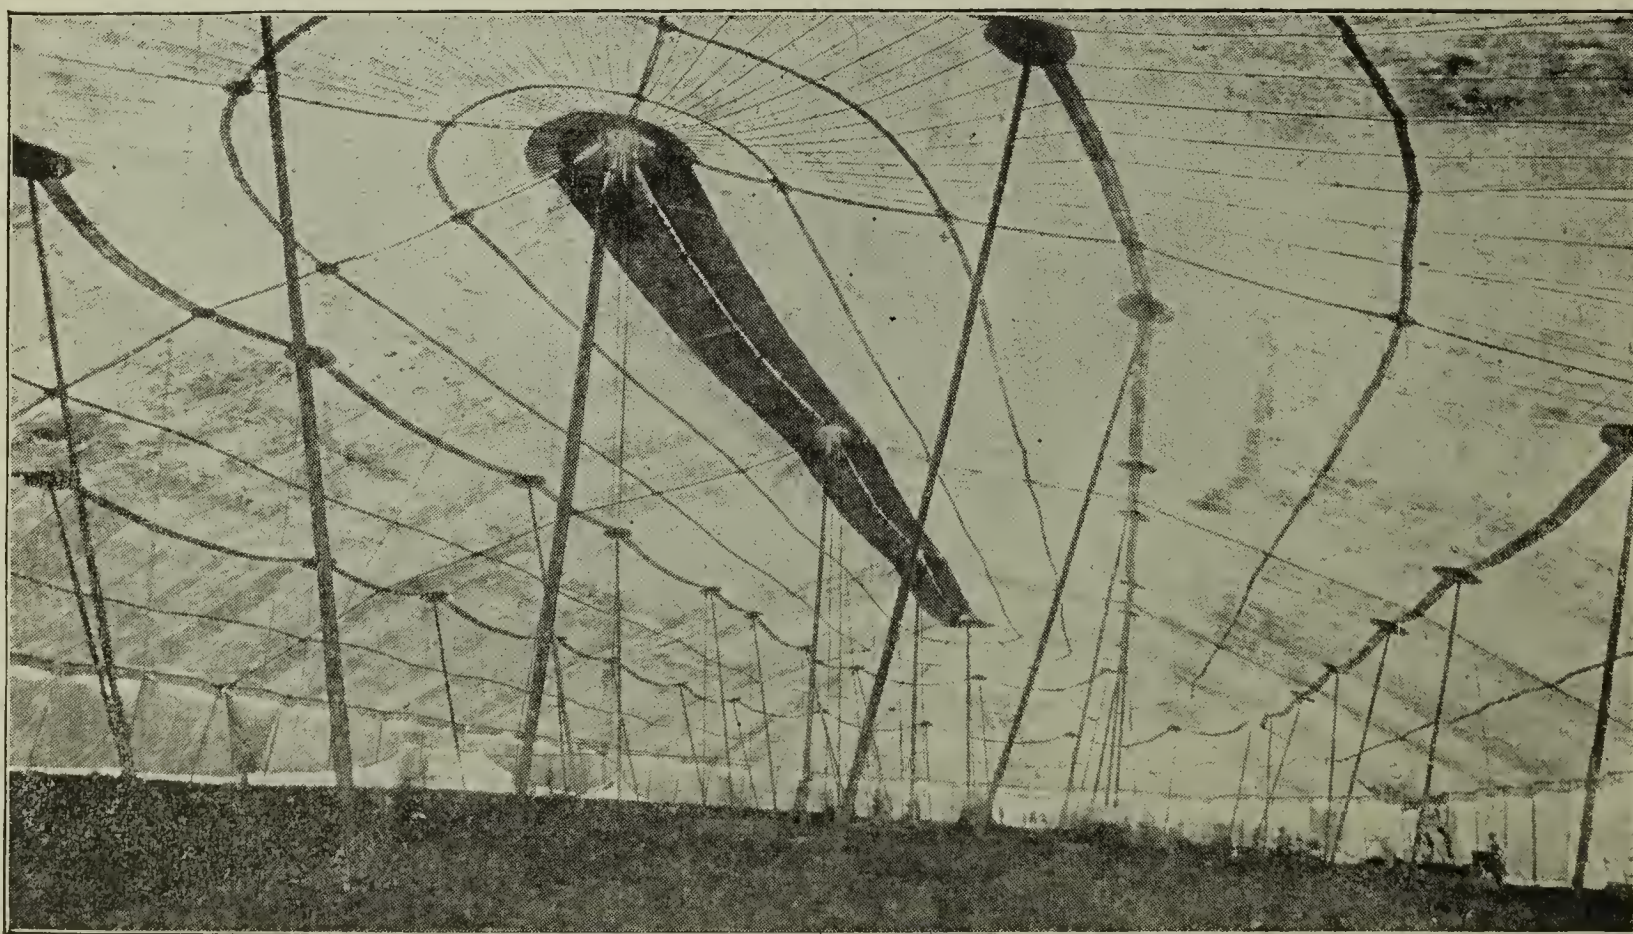

"Come unto Me, all ye that labor and are heavy laden and I will give you rest, take My Yoke upon you and learn of Me: For I am meek and lowly in heart, and ye shall find rest unto your souls."—Matt. 11:28-29.

"Come unto Me, all ye that labor and are heavy laden, and I will give you rest."—Matthew 11:28.

"We which have believed do enter into rest."—Hebrew 4:3.

Light or Darkness, Which?

"This is the condemnation that light is come into the world, and men loved darkness rather than light, because their deeds were evil."—John 3:19.

"There is therefore now no condemnation to them which are in Christ Jesus."—Romans 8:1.

Circus Stables.

We manufacture Horse Tents, with or without Canvas Mangers, as may be required.

The New Birth and How It Is Brought About.

"Except a man be born again, he cannot see the kingdom of God."—John 3:3.

"Born again, not of corruptible seed, but of incorruptible, by the word of God, which liveth and abideth forever,—And this is the Word which by the Gospel is preached unto you."—1 Peter 1:23-25.

Theatrical Tent. 60 feet, Round Top, with 30 and 40-foot Middles. Constructed with two masts one end with rope between at top to hang block on to raise peak.

Inside view of above Tent, showing stage unobstructed by mast. An excellent arrangement for stage shows.

A Showman Writes Us as Follows:

"I have used your Tents for the last ten years, and they have given entire satisfaction. The last Tent I bought of you I used three years, making all one-day stands with my Pavilion Uncle Tom's Cabin Co.," etc.

Please Excuse Me. Certainly, If You Wish.

"A certain man made a great supper and bade many; and sent his servants to say Come; for all things are now ready. And they all with one consent began to make excuse."

"The first said unto him: 'I pray thee have me excused.' And another said, 'I pray thee have me excused.' And another said, 'I cannot come.'"

"Then the master of the house being angry said, 'None of those men which were bidden shall taste of my supper.'"—Luke 14:16-24.

Black Tent. Made "Round End" one end, and "Gable End" the other.

Black Tent. Made one end "Oblong Square" or "Hip," and the other end "Gable."

Lest You Forget, We Say It Yet, "You Need a Saviour."

"Bless the Lord, O my Soul, and Forget Not all His benefits; who forgiveth all thine iniquities; who healeth all thy diseases; who redeemeth thy life from destruction; who crowneth thee with loving-kindness and tender mercies; who satisfieth thy mouth with good things; so that thy youth is renewed like the eagle's."—Psalm 103:2-5.

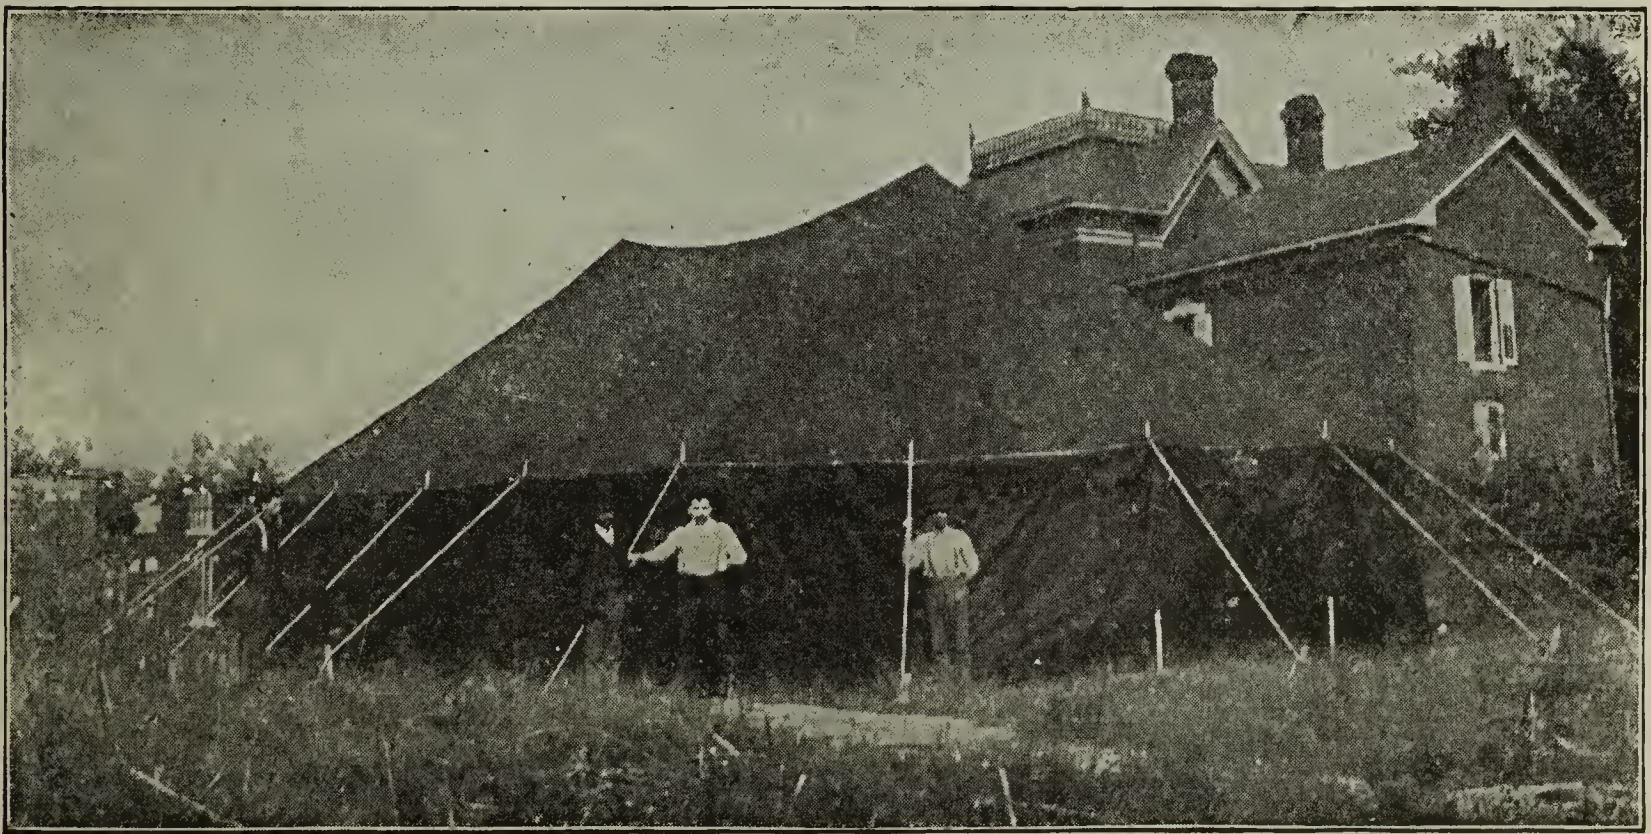

Christ, Our Saviour and Creator, and Upholder of the Universe.

"God, who at sundry times and in divers manners spake in times past unto the fathers by the prophets, hath in these last days spoken unto us by His Son, whom He hath appointed heir of all things, by whom also He made the worlds: who being the brightness of His glory and the express image of His person, and upholding all things, by the word of His power, when He had by Himself purged our sins, sat down on the right hand of the Majesty on high."—Hebrews 1:1-3.

Black Tent. This shows "Gable End," like the back ends of the two tents on previous page. They are also made with gables at each end.

Proprietors of Street Fairs and Carnival Companies can find no better place in the country to buy "Black Tents." A great deal of the failure to give successful moving picture exhibitions in the day time, is due to the fact that the tent is not properly constructed. Also because of the inferior quality of the material usually used in the manufacture of this class of tents. Order your Black Tops from us and be assured of satisfaction in every particular. We can make them all sizes, any style; unlined, half lined and fully lined. Write us for prices, send us your orders.

Oblong Round End Black Tent.

Oblong Round End, 31x52, 6½ ft. wall. Black Tent, 10-oz. duck, lined with black 6-oz. drill throughout, Walls to hook on, sod cloth around the bottom, to lay on the ground and exclude the light. Made with two Center Push Poles.

This Tent was made to order. We have made many different styles of these black tents, and can make them any pattern that may be desired.

Write us what you want and we will send you prices.

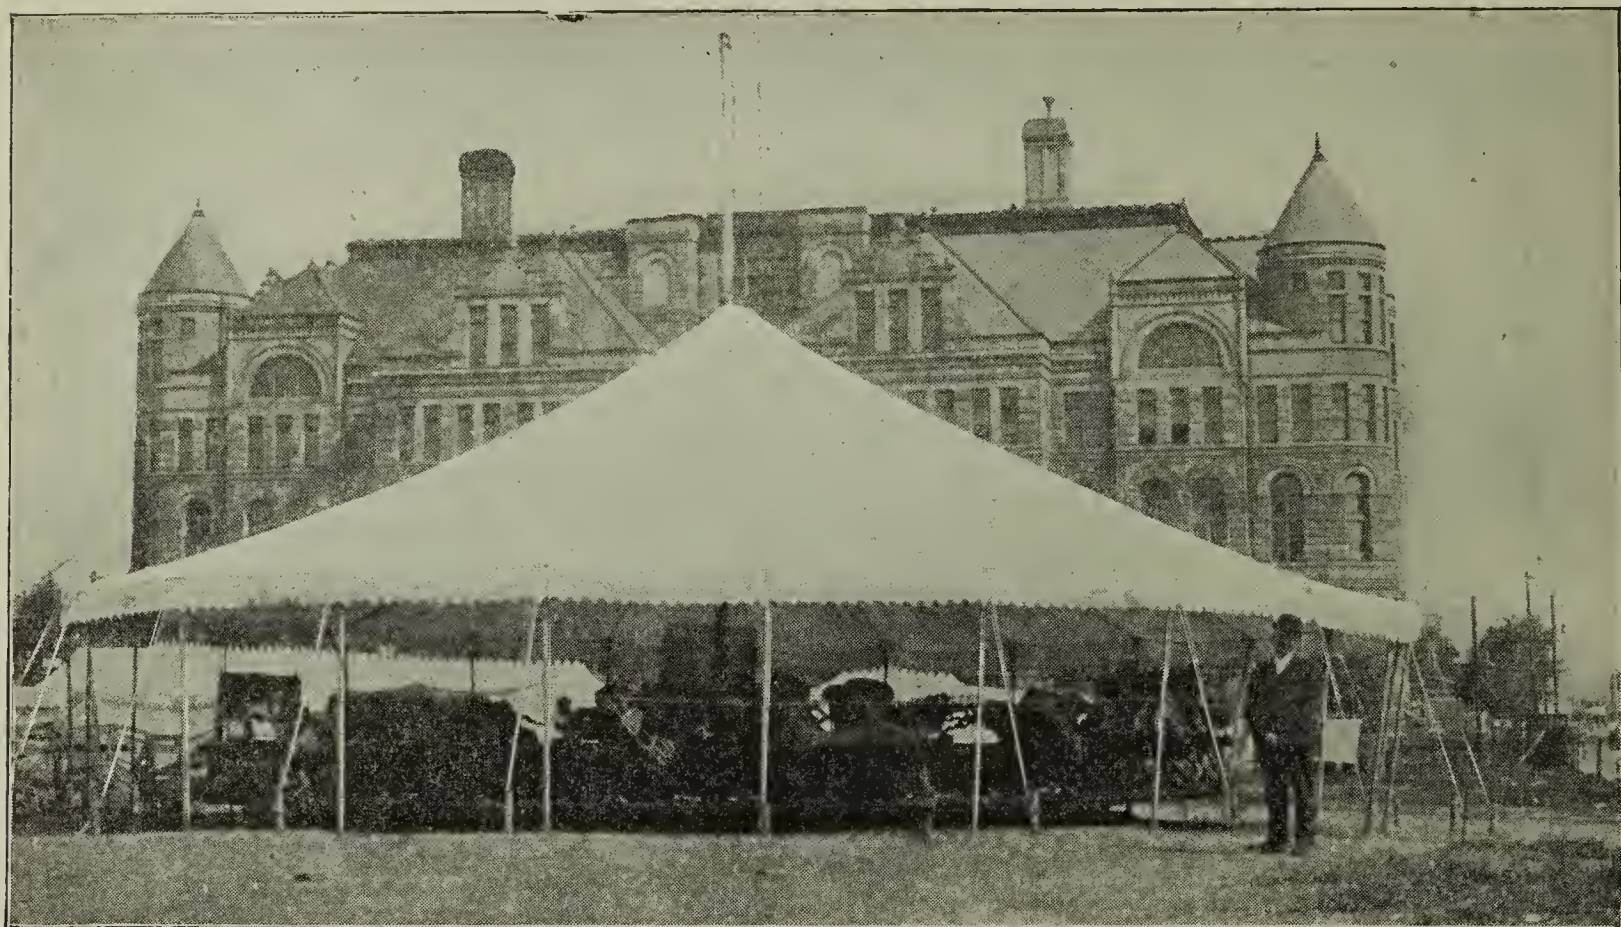

Are You Prudent or Simple, Wise or Foolish?

"A prudent man foreseeth the evil and hideth himself; but the simple pass on and are punished."—Proverbs 22:3.

"The prophet that hath a dream let him tell a dream: And he that hath My word, let him speak My word faithfully. What is the chaff to the wheat? saith the Lord."

—Jeremiah 23:28.

"Heaven and earth shall pass away, but My words shall not pass away."—Matthew 24:35.

Eternal Salvation By Faith.

"Sire, What must I do to be saved? And they said, Believe on the Lord Jesus Christ and thou shalt be saved, and thy house."—Acts 13:30-31.

"Saved in the Lord with an everlasting salvation: ye shall not be ashamed nor confounded world without end."—Isaiah 45:17.

Are You "Condemned" or "Not Condemned," Which?

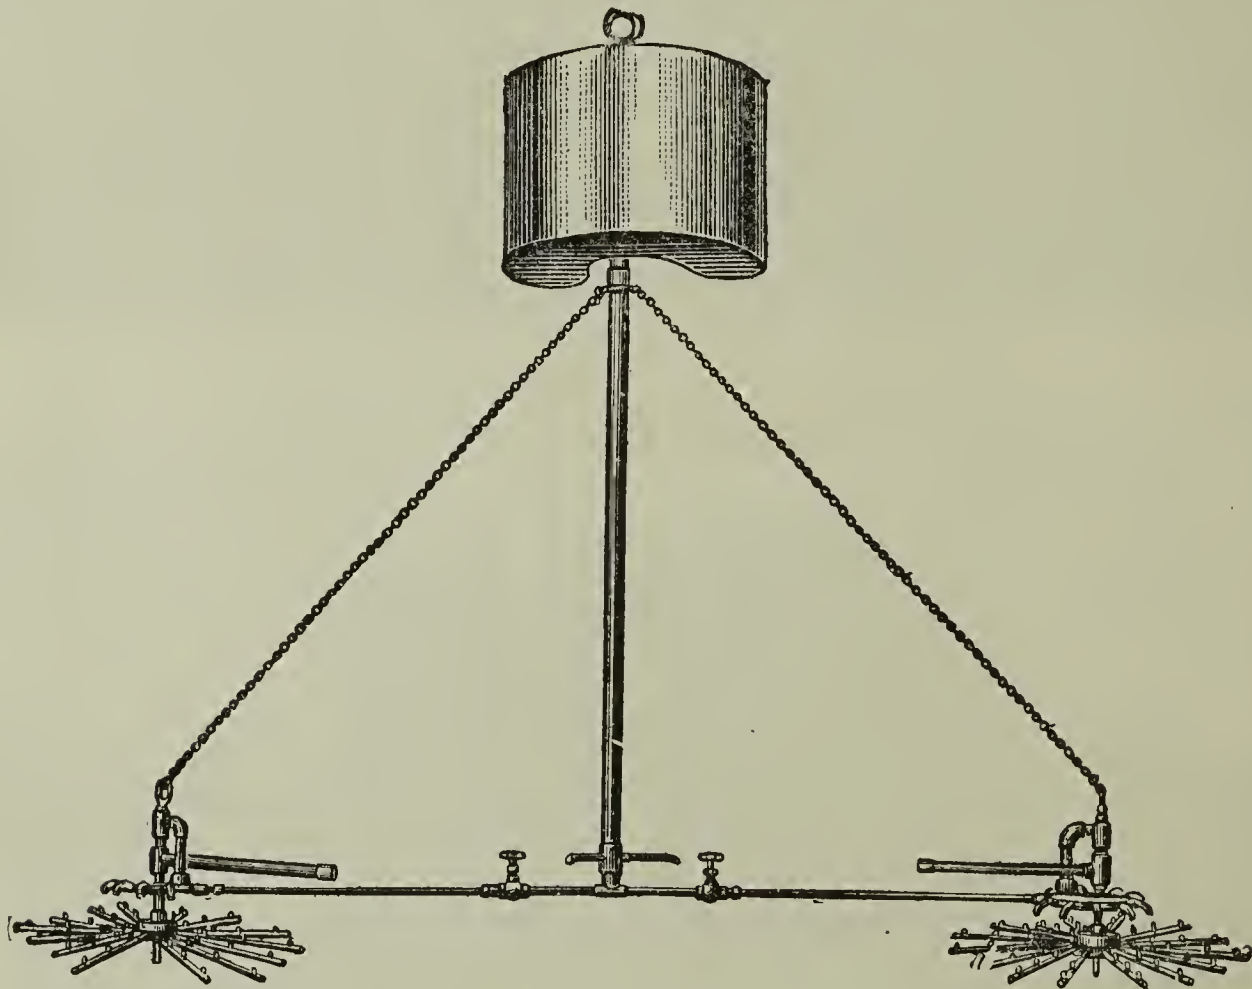

"He that believeth on Him is Not Condemned, but he that believeth not Is Condemned Already, because he hath not believed on the name of the only begotten Son of God."—John 3:18,

Kidd's Patent Self Generating Gas Fixtures

Have a well established reputation, having been in general use for several years for Circuses, Camp Meetings, Public Gardens, Skating Rinks, Mining and Outdoor Operations of all kinds, and have invariably given satisfaction when other lights have been discarded.

For reference go to the first circus or traveling exhibition that comes along, in any part of the world, and ask about **Kidd's Lights**. They know what fixtures are least in bulk and gives least trouble in traveling, as well as the most light when in use, and they use them to the exclusion of all others.

Are You In Possession of Eternal Life?

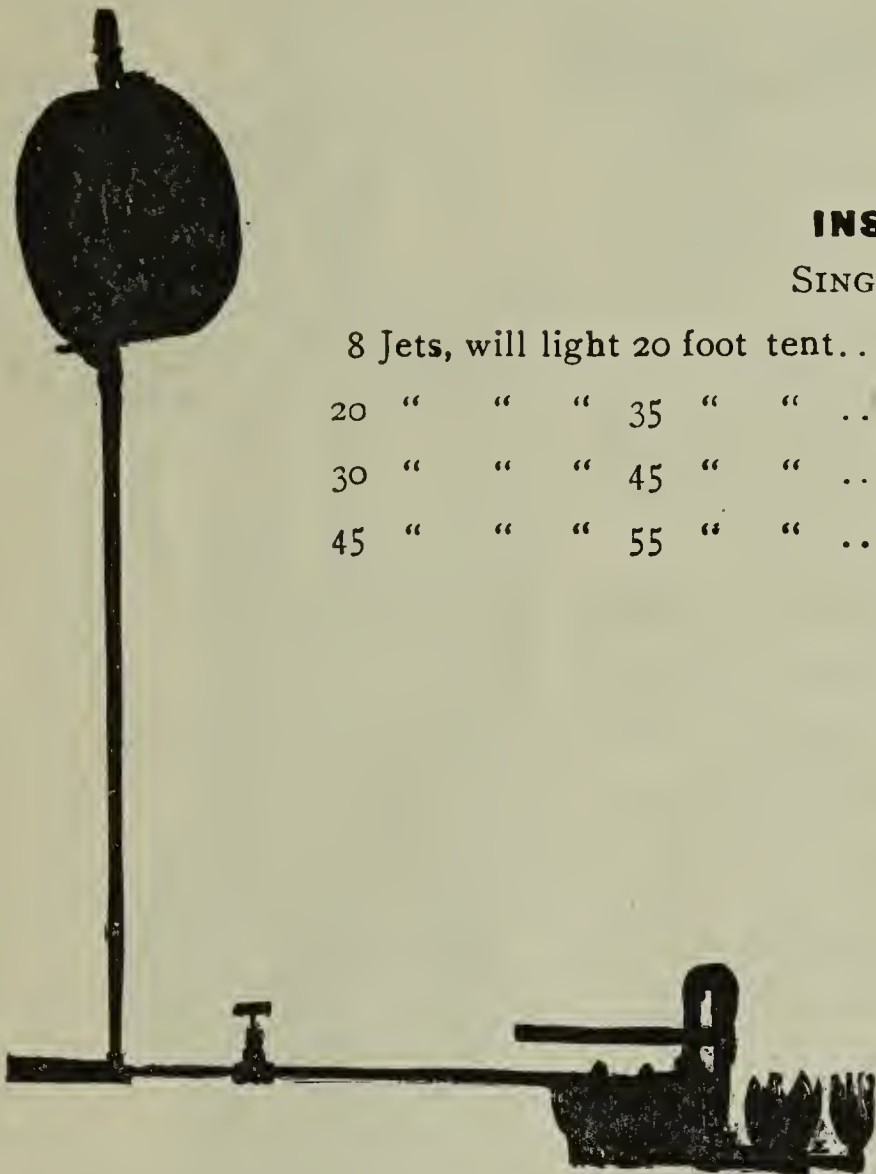

“Verily, verily, I say unto you, He that believeth on Me hath everlasting life.”—John 6:47.
“These things have I written unto you that believe on the name of the Son of God; that ye may know that ye have eternal life and that ye may believe on the name of the Son of God.”—1 John 5:13.

OUTSIDE LIGHTS.

For outside illumination, such as Camp Grounds, Skating Rinks, Wharfs, Railroad Operations, Mining, Plantations, and all Outdoor Operations on a large scale, there is nothing to compete with our large Beacon Lights —They will burn in any weather.

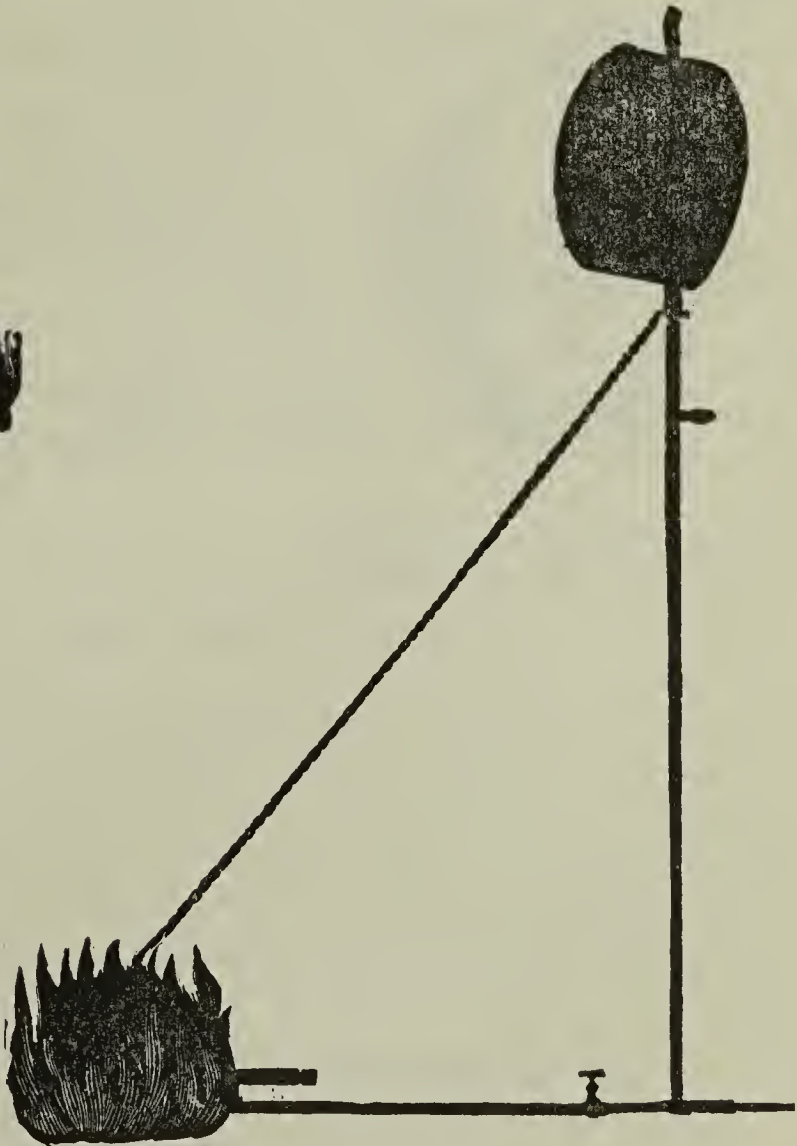

The fluid best suited for inside illumination is Naphtha of about 70° gravity.

For outside illumination Naphtha, Gasoline or Kerosene may be used.

KIDD'S Patent Lights convert the fluid into a highly luminous gas at a cost of about one-sixth the cost of Coal Gas.

The apparatus is so simple that no skilled mechanic is required to run them, and the few parts there are of it are almost indestructible with ordinary use.

We have a full line of parts for these lamps that we supply at manufacturer's prices. We are western agents for these goods, and sell at New York and Chicago prices.

The Strongest Light for the Least Money.

Each 1,000 candle power consumes four quarts of gasoline in twenty hours' continuous burning. A child can operate it and after it is generated it needs no more attention. Generate it just like the old style gasoline torch, by heating generator tube at top of the lamp with wood alcohol. The lamp is not taken apart when transported from place to place, but is always ready for immediate use. You can play base ball, basket ball or foot ball, or any other outside game at night by using a few **Perfection Lamps**. There are no wires to get tangled up and broken, and there are no loose parts to fall off and get lost. The hood of the lamp is made of aluminum and will not rust. The bowl which holds both the gasoline and the air is made of eighteen gauge copper, and cannot burst.

We furnish a lamp stand 7 ft. high for \$4.00.

All parts kept constantly in stock, and these with mantles can be shipped on short notice.

Did You Ever Figure This Out?

"For what shall it profit a man, if he gain the whole world, and lose his own soul?"—Mark 8:36.

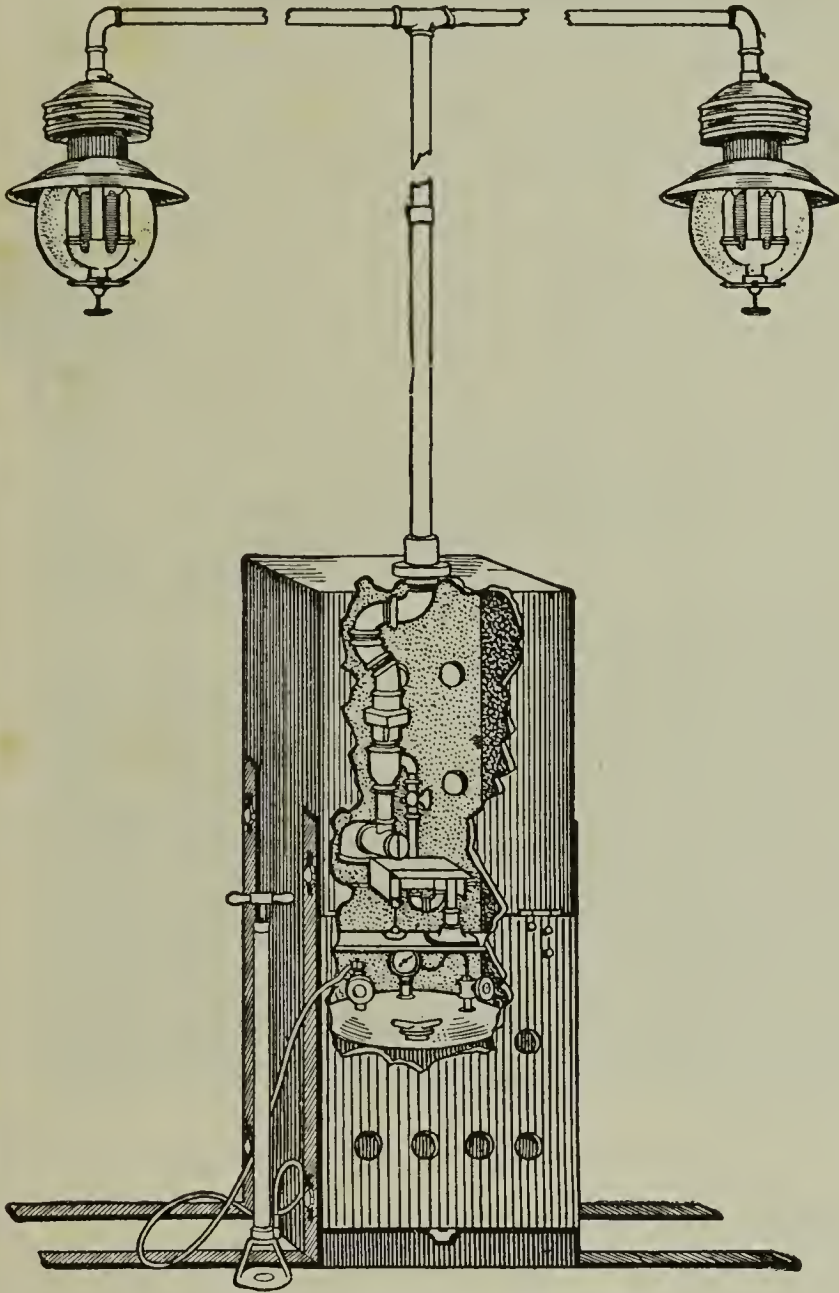

"What shall a man give in exchange for his soul?"—Mark 8:37.

Which Road Are You Traveling?

"Wide is the gate and broad is the way that leadeth to destruction, and many there be which go in thereat."

"Straight is the gate and narrow is the way that leadeth unto life and few there be that find it."—Matthew 7:13-14.

PERFECTION NO. 300

WE WILL RENT THIS LAMP

"The Perfection" Lighting System for Circuses.

The new circus light is a pronounced success, and has come to stay, for the following reasons: The consumption of gasoline is very small: There are practically no breakable parts: No experience is needed to run it satisfactorily, and it is always ready. There are no glass parts about this system, and the box is made of perforated light weight sheet steel, so that it will not bend or break and yet is not heavy. The sub-burner is protected from drafts so that it cannot blow out when exposed to the elements. Our regular system gas machine No. 500 will supply gas to sixteen mantles, each mantle giving from three to five hundred candle power. The economy in gasoline combined with the intensely strong and brilliant light makes the "Perfection" the most desirable lighting system on the market. Price of No. 500 generator with twelve lights complete \$180.00.

Price of No. 300 lamp with glass globes and eight mantles as illustrated above \$182.00.

No. 300 lamp as illustrated above includes eight burners in two groups with glass globes, a special box for transportation purposes, large size foot pump, and four knee braces for bracing the box and making it set level.

An Important Question Answered."

"If a man die shall he live again?"—Job 14:14.

"The hour is coming, in the which all that are in the graves shall hear His voice, and shall come forth; they that have done good, unto the resurrection of life; and they that have done evil unto the resurrection of damnation."—John 5:28-29.

Will You Be In This Company?

"What are these which are arrayed in white robes, whence came they?—These are they which came out of great tribulation, and have washed their robes and made them white in the Blood of the Lamb."—Rev. 7-14.

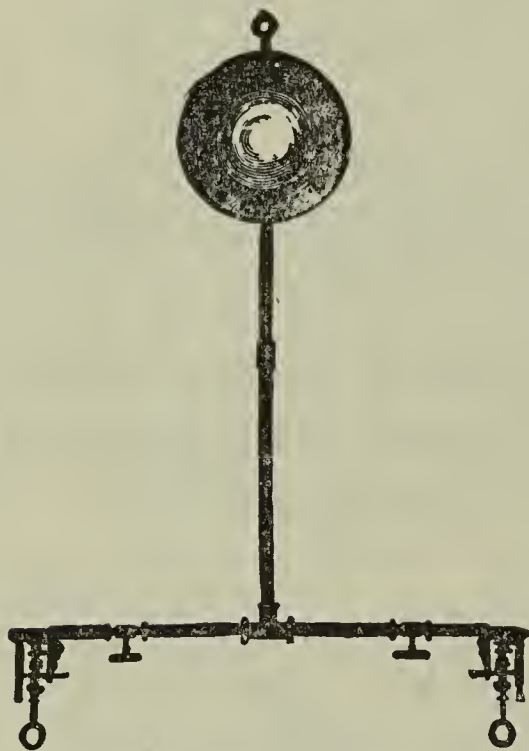

TORCH BURNER GASOLINE LAMPS.

TORCH BURNERS.

These are a very superior make of this kind of lamp. They are perfectly safe, give a clear, steady light, and have no smoke or smell, and they stand any wind. For lighting tents, out - door meetings, etc., there is nothing to equal them.

Two 2-burner lamps will light a 60x40 foot tent sufficiently to read by.

To insure a brilliant light and no smoke, use gasoline of 74 degrees gravity.

THE BAKER LAMP.
PATENTED.

The accompanying cut shows the style of burner used on these lamps. The burner is made of cast-iron, which makes it very durable, and being quite simple in construction, it is almost impossible to get it out of order, so that it can always be relied upon to do its work well, and not fail you at some critical moment and cause vexation and loss of what would likely be valuable time.

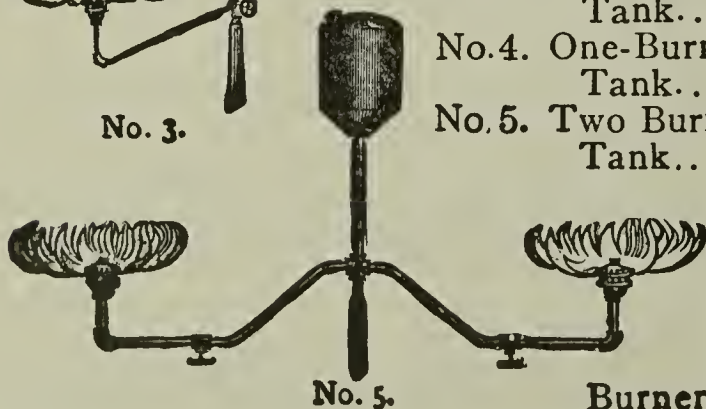

For volume of light, simplicity, reliability and convenience, the Baker Lamps stand unrivaled. Only a trial is needed to convince one of their superiority over all others. They invariably take the place of others wherever introduced.

Their very great success has more than met the expectations of the inventor. Many of the most successful parties now on the road are using them, and the universal verdict is that they cannot be beat. The remarkably brilliant light which the lamp affords will alone draw a crowd.

ADVERTISING FLAGS AND BURGEES

Advertising Flags for stores, hotels, factories, pleasure resorts, etc. Made of all wool navy bunting in the best manner, with canvas headings and grommets. Cotton flags make a very satisfactory substitute for these flags at 50 per cent. reduction from the price of wool bunting. Probably no signs that can be used are more attractive than handsome flags. They wave in the wind and give a suggestion of life and energy, and have a holiday effect that nothing else has. On account of their motion, they will attract attention quicker than any stationary sign.

accompanying designs are merely suggestions which may be varied as to color, size and inscription, almost indefinitely. The accompanying prices are for the flags without lettering.

Put up a good high flag pole on your store and get a good sized burgee or advertising flag with your name or business on it and fly it on bright days. Also get an U. S. Flag for holidays, and it will give your place a prestige and an air of life and attractiveness that nothing else will. Flags will last much longer if taken in at night and not put out on very windy days.

Cotton Bunting Burgess and Flags at half the price of wool. Large discount from these prices. See discount sheet.

Burgees.

For steamboats, yachts, club houses, hotels, warehouses, large tents, etc., etc. Made of best all-wool Navy Bunting, with canvas headings; large sizes roped.

Burgees, plain or with firm name, trade mark, advertisements, etc. Lettering extra, according to style and size of letter. Send for estimates on peculiar designs. In ordering, please state if you have any particular choice in colors. Burgees can be lettered satisfactorily with black or blue paint, which will stand as long as the bunting. It is not practical to letter with white or light colored paints as it makes the burgee too heavy to fly well. Paint lettering, 20 cents per running foot. Stars sewed on both sides of border or heading, 15 per cent extra. Any practical design made.

TO AWNING AGENTS AND USERS.

We wish to call your attention to our facilities, capabilities and willingness to supply first-class awnings at advantageous rates anywhere in the United States. We have 35 years' experience. We have an up-to-date, commodious factory, second to none in the country, fitted with every labor saving device known to the trade. Operators and cutters with experience that cannot be obtained in small local shops. We have our own blacksmith shop where the frames are made cheaper than can be done in small quantities. Buying as we do in very large quantities, we are enabled to buy much cheaper than the small manufacturer. Lastly, we are not doing a "Get Rich Quick" business, but are satisfied with small profits, and willing to share the above benefits with our patrons. The store awnings shown in these pictures are made with wood front rods, which are inserted through a pocket along the front of the awning. This makes an Awning set square and look nice. But we also make them, if wanted, with iron front rods, and grommets in awning to tie to front rod, with tarred marline which we supply. We supply these front rods with couplings which obviate the necessity of bending them in shipping. Awnings to tie to iron front rods are easier to take off and put on in fall and spring than the wood rods in pockets. Examine our Prices, Discounts, Qualities and Styles, and it will generally be found that money can be saved and a better article obtained by buying of us. Reliable business men wanted as agents everywhere.

The Word of God, Wheat.

The Word of Man, Chaff.

"The prophet that hath a dream, let him tell a dream; and he that hath My Word, let him speak My Word faithfully. What is the chaff to the wheat? saith the Lord. Is not My Word like as a fire? saith the Lord; and like a hammer that breaketh the rock in pieces?"—Jeremiah 23:28-29.

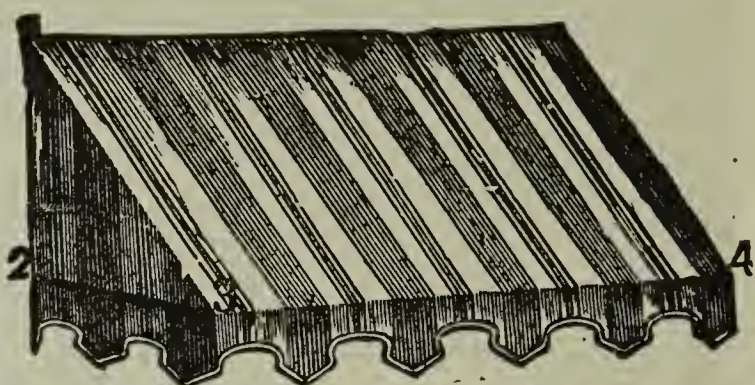

Are Your Sins Forgiven? If Not, Why Not?

"And said unto them, thus it is written, and thus it behoved Christ to suffer, and to rise from the dead the third day; and that repentance and remission of sins should be preached in His name among all nations, beginning at Jerusalem."—Luke 24:46, 47.

"To Him give all the prophets witness, that through His Name whosoever believeth in Him shall receive remission of sins."—Acts 10:43.

DIRECTIONS FOR MEASURING STORE AWNINGS.

First determine the place where the joints of the frames will be fastened to the building, which should be from seven to eight feet from the sidewalk, according to the height of the front. (See figure 2 in diagram.) You will observe that the curtain, 15 inches deep, drops below that point, for which you will have to allow for clearing people's heads. Then measure from there to where the top of Awning can be fastened above the windows (see figure 1 in diagram), which will be the distance from 1 to 2, or height of awning; 2 to 3 in a high building should be the same as 1 to 2; but in a low one a little more. Then measure the width of the store from center of column on one side to the same on the other side, which will be the distance from 3 to 4, or width of Awning. If the top of the windows where the Awning is to be attached projects beyond the face of the building, or is back of the face, mention how much. When ordering an awning state whether it is to be fastened in stone, brick, iron or wood, both as regards the top and bottom, and whether the door posts and face of building or outer columns are in line; also, whether the frame requires three or more or less joints and bars. In ordering a new cover for awning, state whether the front bar is of iron or wood.

Above cut shows that the Old Favorite Pull Up Awning with openings showing location of pulleys and joints also dotted lines showing how to reef the rope though the pulleys. If more or less number of ropes are wanted, or if it is desired to have them come down at end in place of center, a readjustment of pulleys following the same principle gives the result.

This shows one end of frame representing an awning when height and base are same and stationary hinge is used. When height and base are not the same, slide rods will be substituted as shown on chain roller awning. See instructions for ordering at bottom of opposite page.

Instructions for Putting Up Common Awnings.

Lower fixtures should be about 7 ft. 6 in. from sidewalk. From this point measure up just the height of awning marked on form or order. If building is wood at top no pole is needed, but if of other material, either brick, or iron or stone, attach top pole with fixtures accompanying. Screw pulleys on under side of pole or same distance below canvas if no pole is used. Run ropes through as shown in cut. Attach lower fixtures all in line. Fasten cloth at top with screw eyes. Bore holes in front pole for bars opposite where columns will come. Put end bars in end pockets and through front pole with washers outside and inside of pole. Push awning out. Put back end of bars on. Then put the center bars in the same way. Screw on burrs tightly. Attach cleats for tying ropes as shown in cut.

If there are no center columns and brace arms are used, they are to be attached at back end same place bar is attached or clamped on bar, according to construction of frame. The other end screws on to the front pole, and strengthens the awning, in place of straight center bars.

For directions for measuring and price list of these awnings, see preceding page.

Two Questions, Can You Answer Them?

"He that despised Moses law died without mercy under two or three witnesses: of how much sorer punishment, suppose, ye, shall he be thought worthy who hath trodden under foot the Son of God, and hath counted the blood of the covenant, wherewith He was sanctified, an unholy thing, and hath done despite unto the Spirit of grace?"—Hebrews 10:28, 29.

"How shall we escape if we neglect so great Salvation?"—Heb. 2:3.

Man's Thought, and God's Word, About Christ.

"He is despised and rejected of men; a man of sorrows, and acquainted with grief; and we hid as it were our faces from Him; He was despised and we esteemed Him not."

"For unto us a child is born, unto us a Son is given, and the government shall be upon His shoulder; and His name shall be called Wonderful, Counsellor, The Mighty God, The Everlasting Father, The Prince of Peace."—Isaiah 53:3 and 9:6.

An Everlasting Salvation, Is It Yours!

"My sheep hear my voice, and I know them, and they follow me; and I give unto them eternal life; and they shall never perish, neither shall any man pluck them out of my hand. My Father which gave them me, is greater than all; and no man is able to pluck them out of my Father's hand."—John 10:27-29.

BELT CHAIN ROLLER AWNING.

The above cut shows the Belt Chain Roller Awning, which is used extensively in most of the large cities. The great advantage of this awning is for large and wide store fronts, as it can be made as long as 100 feet by having a number of supports to the roller. It rolls up close to the building, making a much neater appearance than in pull-up awnings. It can be made with ends, or wings, if desired, but looks much better without them. The awning can be lowered to any desired angle, and will remain there when set. When an awning 60 or more feet in length we put chain or gear each end.

BEVEL COG GEAR ROLLER AWNINGS.

The cut shows the Bevel Cog Gear Roller Awning, which is used extensively in most of the large cities. The great advantage of this awning is for large and wide store fronts, as it can be made as long as 100 feet by having a number of supports to the roller. It rolls up close to the building, making a much neater appearance than in pull-up awnings. It can be made with ends, or wings, if desired, but looks much better without them. The awning can be lowered to any desired angle, and will remain there when set. The cut shows awning without ends, and while they can be made with ends, they work the best without them and look the neatest.

Directions for Measuring for a Chain or Cog Gear Awning.

First determine the place where joints of frame will fasten to the building, which should be from 7 to 8 feet from sidewalk, according to height of front. The curtain, 15 inches deep, drops below that point, for which you will have to allow, for the bottom of curtain should be at least 6 feet 3 inches from sidewalk. Then measure from where frame fastens, to the point where awning will fasten above. This gives the distance from 1 to 2. The distance over sidewalk, or from 2 to 3, must be the same as from 1 to 2, or if longer slide rods must be used. Then give extreme width that awning is to cover. This will be the length of top roller fixtures. But the awning and front rod is always nine inches shorter, on account of end journals and working gear of awning, which take up nine inches.

State whether frame requires 4 or more joints and bars, also if in line and whether they fasten into iron, stone, brick or wood.

State if top fastens to brick, iron, stone or wood, also if in line with upright columns. If back, how much. If projects, how much.

State if end curtains are wanted. If only one, which side. (Standing and facing building.)

State if ends are to be attached to awning as per (Fig. 1, showing ends) or separate as per (Fig. 2, see next page.)

Notice—Always state definitely if measure from 3 to 4 is as per diagram, or if it is full length of roller. The outside measure of fixtures is 9 in. more than cloth measurement.

If recover for Chain Roller Awning, give us the height, projection and exact width across of cloth. Designate distance from edge of cloth to center of re-inforced strip or strips where center support comes at the top, and if ends are wanted for chain or gear roller awning cover, specify if attached or detached.

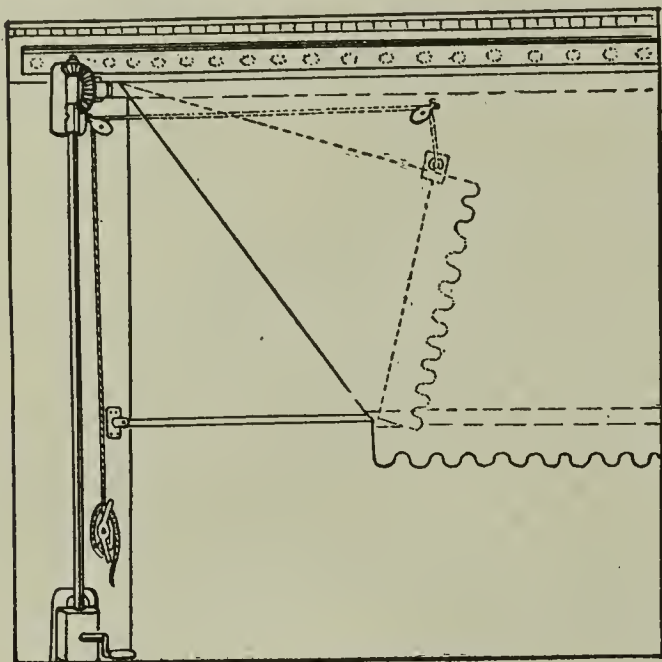

When ordering Cog Gear Awning state whether the box will be on the right or left end standing facing building.

Good News for Sinners.

Christ Jesus came into the world to save sinners.—1 Tim. 1:15.

“He was wounded for our transgressions. He was bruised for our iniquities. The chastisement of our peace was upon Him; and with His stripes we are healed.”—Isaiah 53-5.

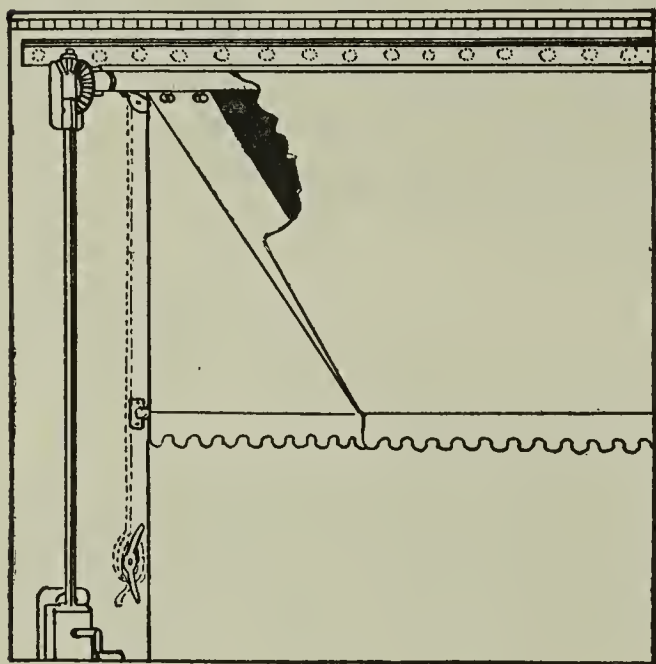

ATTACHED ENDS FOR ROLLER AWNING.

Giving the arrangement of ropes and pulleys for pulling ends of awning in before rolling up.

Rope is fastened in back lower corner of end and run through ring, sewed on under side of roof at proper point. From there the rope runs up through the pulley, which is under roller, and across through another pulley in same position at end of roller, then down within easy reach. The other end is arranged the same way except that the loose end of the rope should be brought across and down with the first rope so one can operate ropes and crank at the same time.

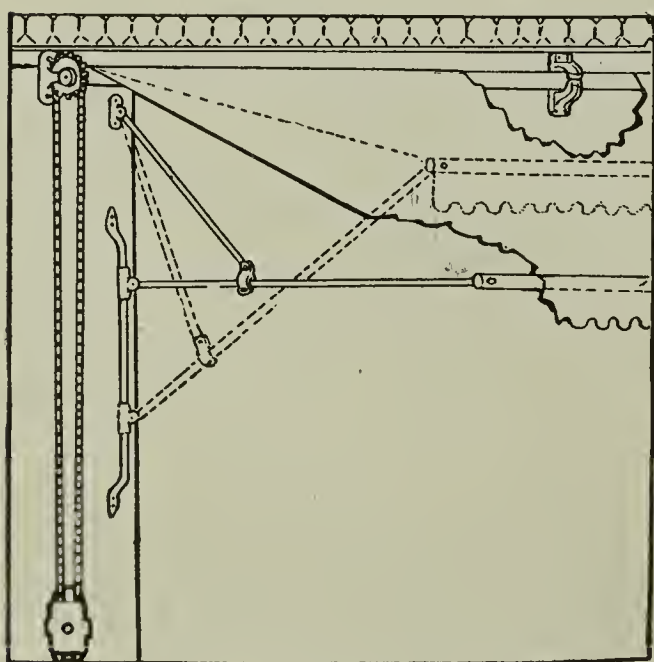

Although this style of ends look better when rolled up, we don't recommend them, as they do not work so smooth, they drag on the roof and cause more trouble than the No. 2 style.

DETACHED ENDS FOR ROLLER AWNING.

We make these ends with return strip as shown in cut. This excludes the light. Rope is fastened to front pole and passes up inside through rings, and through pulley and down to cleat as shown in cut. When awning is rolled up an extra pull on this rope brings end cloth in close against the building.

We think this the simplest and best as it is easier to work, does not drag on the roof of awning and does not create a bulky and uneven place on the roller. Will make them either way. Specify which.

GEAR OR CHAIN ROLLER AWNING.

Showing all parts and how to attach for operating when height is less than projection, and slide rods are used. Dotted lines illustrate awning partly out, and dark lines show it in position, demonstrating how it slides down or up automatically as the awning is raised or lowered, allowing bars to be in horizontal position when in use. The back end of bars slide down and permit it to drop level at top when rolled up against the building. This style is especially adapted to low fronts or when prism glass is used above awning.

When height and projection are the same slide rods are not used, but bars are attached to building with stationary hinges.

"He that despised Moses' law died without mercy under two or three witnesses: of how much sorer punishment suppose ye, shall he be thought worthy who hath trodden under foot the Son of God, and hath counted the blood of the covenant, wherewith He was sanctified, an unholy thing, and hath done despite unto the Spirit of grace?"—Hebrews 10:28-29.

DIRECTIONS FOR PUTTING UP COG GEAR ROLLER, OR CHAIN ROLLER AWNINGS.

Determine the place where awning is to fasten to building at extreme right and left ends at top. On the end at which operating box is to be placed, fasten the cog gear for top. On opposite end place end bracket. The bearings of these two parts must be on a perfect level. After these parts are securely fastened, draw a line from center to center of journal boxes across building; ascertain how many center supports are needed, measure awning to strips, divide the extreme width into as many parts as there are center supports. The center support consists of top and bottom part, the one with four rollers being bottom part, the one with one wide roller being the top part. Place the bottom in position, allowing space for roller between bottom and top part, which should be from six to eight inches in center according to size of awning, as a large awning takes up more room on roller than a small one. After bottom part is securely fastened, place the long roller in position and fasten securely at each end. Place top part of center support in position and the top part of awning is complete. The lower fastenings are the same as any ordinary awning. The operating box is generally fastened about three feet from the ground in a line with the top gear. Do not place operating box in position until you have fitted the connecting rods into place, when you can put it exactly where it belongs.

Where ends are sewed to the body of the awning (as in Fig. 1, which shows ends folded under) we furnish everything necessary for fastening. Where ends are separate (as in Fig. 2) the upper part of end is securely fastened directly under the roller and to the extension rod of frame. We sew rings on inside edge of end curtain and by placing a pulley at the upper inside corner and running a cord through the ring the ends can be folded up very neatly by simply pulling the rope tight.

Attach fittings for lower part of frame all in line. Box and crank go on same end as sprocket or gear above. Tack cloth on roller allowing for cloth to roll over, not under. Be sure and get cloth to come straight, as it will roll up uneven otherwise. Have reinforced strip come right for center support. Roll cloth up on roller. Pass chain through box and over sprocket. Bore holes in front pole where bars will come at columns. Put pole in front pocket. Put end bars through pole with washer on each side. Push awning out and attach back end of bars. Then put center bars in same way. Screw all burrs tightly and arrange end with rope, as shown in either cut 1 or 2 (seen on preceding page), according to style of end ordered.

If there are no center columns to attach the bars to, brace arms can be used on any medium sized front. These fasten to side and branch out diagonally supporting front pole.

Bread for the Hungry.

"The bread of God is He which cometh down from Heaven, and giveth life unto the world. Then said they unto Him, Lord, evermore give us this bread. And Jesus said unto them, I am the Bread of Life; he that cometh to Me shall never hunger, and he that believeth on Me shall never thirst."—John 6:33-35.

Roller Drop Curtains.

FOR FRONT OR ENDS OF PERMANENT AWNINGS.

Roller is put in hem at bottom of curtain. Rope fastens with screw eyes on outside of curtain at the top, loops down around the roller and up again through pulleys on the inside and the ends lead through pulley at the end, as shown in cut, and down the post. By pulling on the ropes the roller starts upwards. It can be held at any height by fastening ropes to cleat. Send size for samples and prices. In ordering state clearly which is up and down and which distance across.

N. B. In above cut pulleys and cleats are put on outside of awning to show how they are reefed, but in use they are put on the inside.

Stationary Frame Roller Awning.

This awning is used where the whole sidewalk is desired to be covered, and rolls up and gives more light on dark days than the awning with permanent roof shown on preceding page. The roller on this awning is at the bottom and the pulleys are placed, and the ropes are reefed the same as the drop curtains.

We make the frames of gas pipe and the cover of white duck or stripe as may be desired. Send width of sidewalk, and height from sidewalk to where the frame can be attached on face of building. Write for samples and prices.

AWNINGS.

For Residences, Windows, Doors, Balconies and Verandas.

If you want to add beauty, style, comfort and utility to your home, this will be much enhanced by fitting your residence with neat and useful Awnings. The air is unobstructed without too much sun, the carpets are preserved from fading, and an air of comfort and elegance is imparted that cannot be had without them.

We have an elegant line of the latest styles of Awning Stripes. 36 years' experience in catering for this class of trade, which is constantly growing. We have one of the largest and best equipped establishments in the country. With competent workpeople in all departments to insure first-class work.

Customers in the country can get these Awnings as readily as city patrons. By examining the instructions on the opposite page for measuring, any ordinary mechanic can take these measures, and could also attach them to building when received.

Prices on list are for white or best blue or brown stripes.

We have two other grades that are no better cloth, but are what we call "Fancy" and "Extra Fancy" stripes; samples and prices will be sent on application.

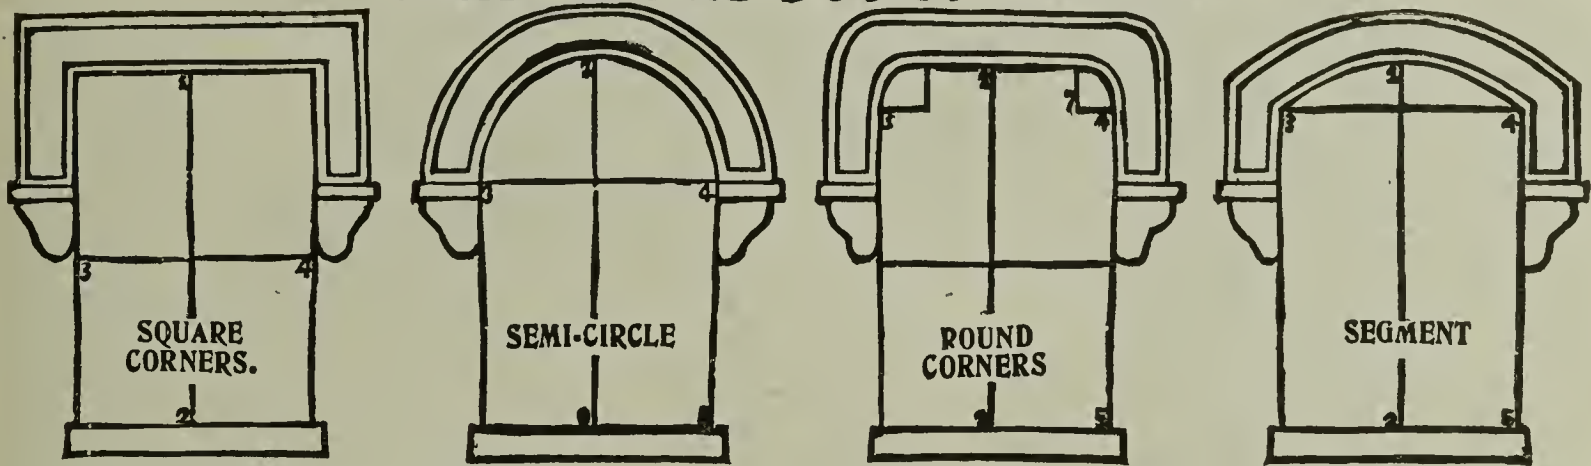

Tell us the number and size of Awnings or Curtains wanted, and we will send prices and samples.

Eternal Life Through Faith, Wrath Through Unbelief.

"But as many as received Him, to them gave He power to become the sons of God, even to them that believe on His name."—John 1:12.

WINDOW AND DOOR AWNINGS

DIRECTIONS FOR MEASURING WINDOW AND DOOR AWNINGS.

In ordering these Awnings, the measure is to be taken on the door or window frames, not on the brick work, and in all cases state the shape of top of the window, giving name of shape from our diagrams.

In taking measurements for Window Awnings, measure from 1 to 2, 3 to 4, 4 to 5, 6 to 7. Always state if Awnings wanted are for first story or stories above. If for first story state height from sill of window to ground.

For Window and Door Awnings Complete.

If Window Awnings, frame and all are wanted, answer the following questions:

How many? What kind of cloth? If on the first floor or above? Distance from 1 to 2? From 3 to 4? And if circular or segment top, from 4 to 5? What material do we fasten to, and are all points in line?

For Recovers—Window or Door Awnings.

If you have the frame and wish Recover, state what kind of cloth; Shape of top of Awning; Shape of front of Awning; Height of Awning; Extension of Awning; Width of Awning.

In taking height of recover, do not include the scalloped curtain, but measure from where frame fastens, only.

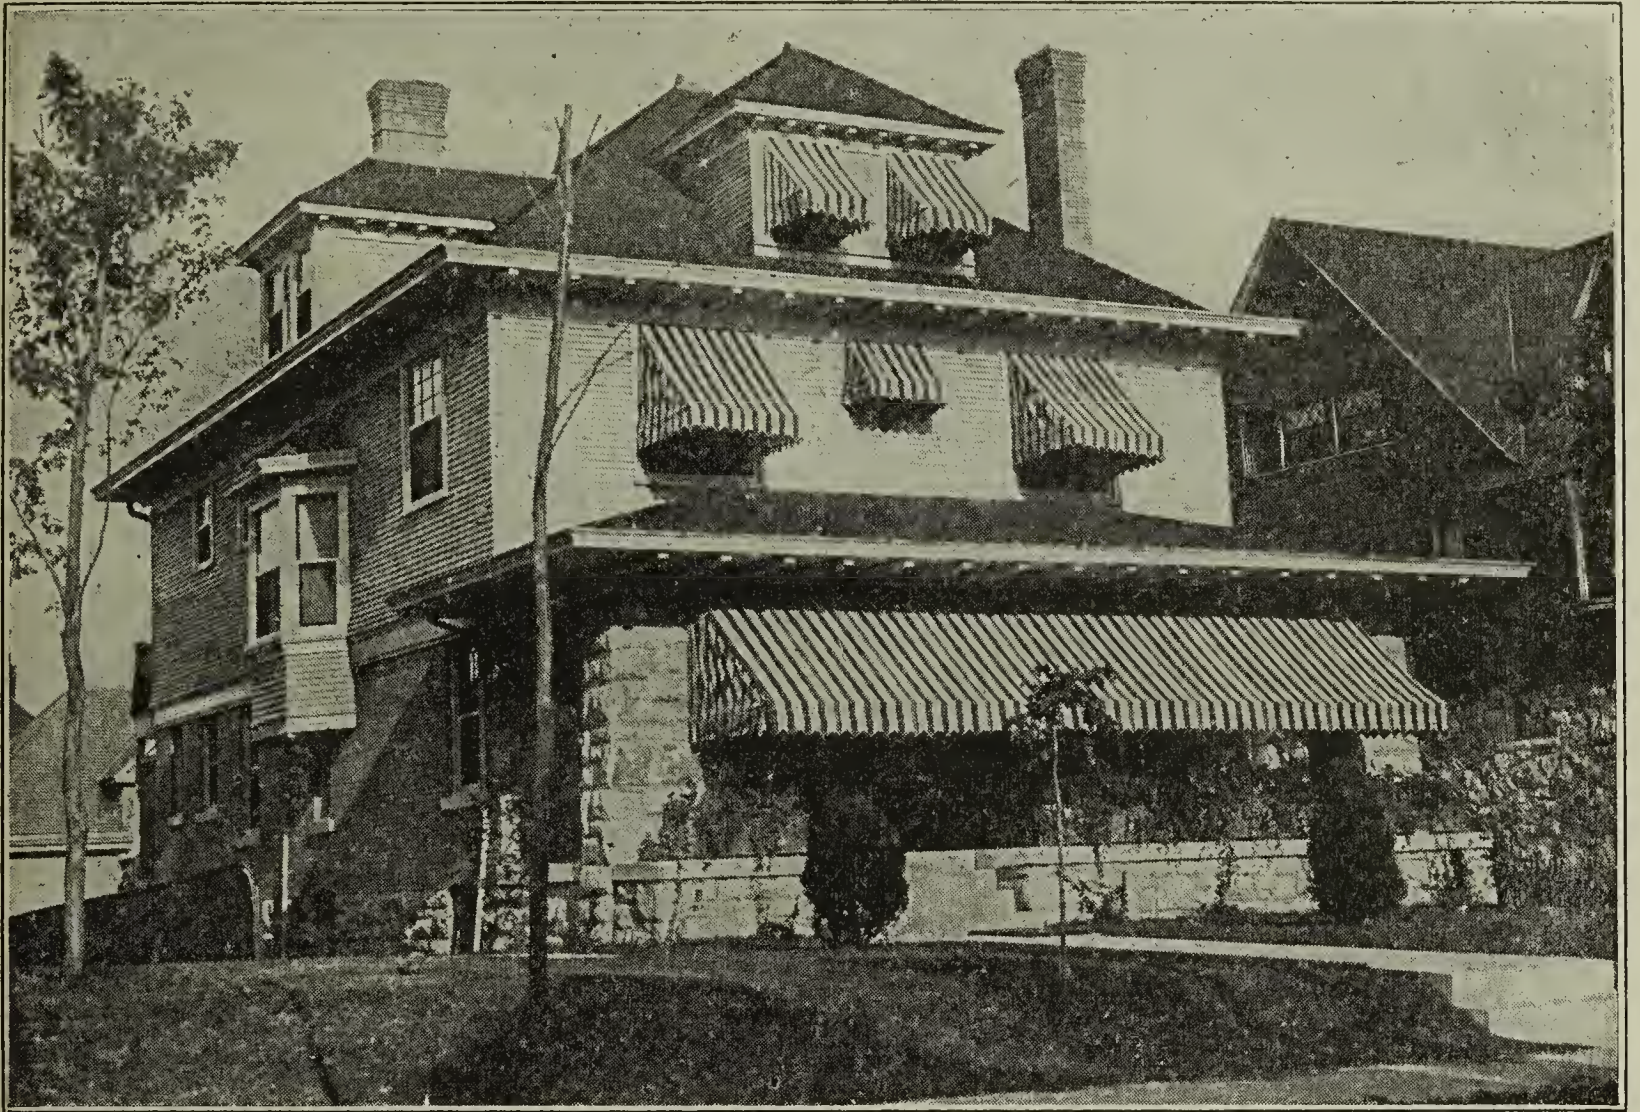

The way to get the exact height and extension of Circle or Segment Awning Covers, is to draw a string across from lower fixture on one side to the same point on the opposite side; then measure from the center of the string straight up to the highest point of Circle, for the height, and straight out to the farthest point of circle, for the extension. This gives the distance, including the diameter.

In ordering Porch or Door Awnings, specify what space must be left below, so as not to interfere with persons going in or out. If screens are used on doors, awnings should be a little wider.

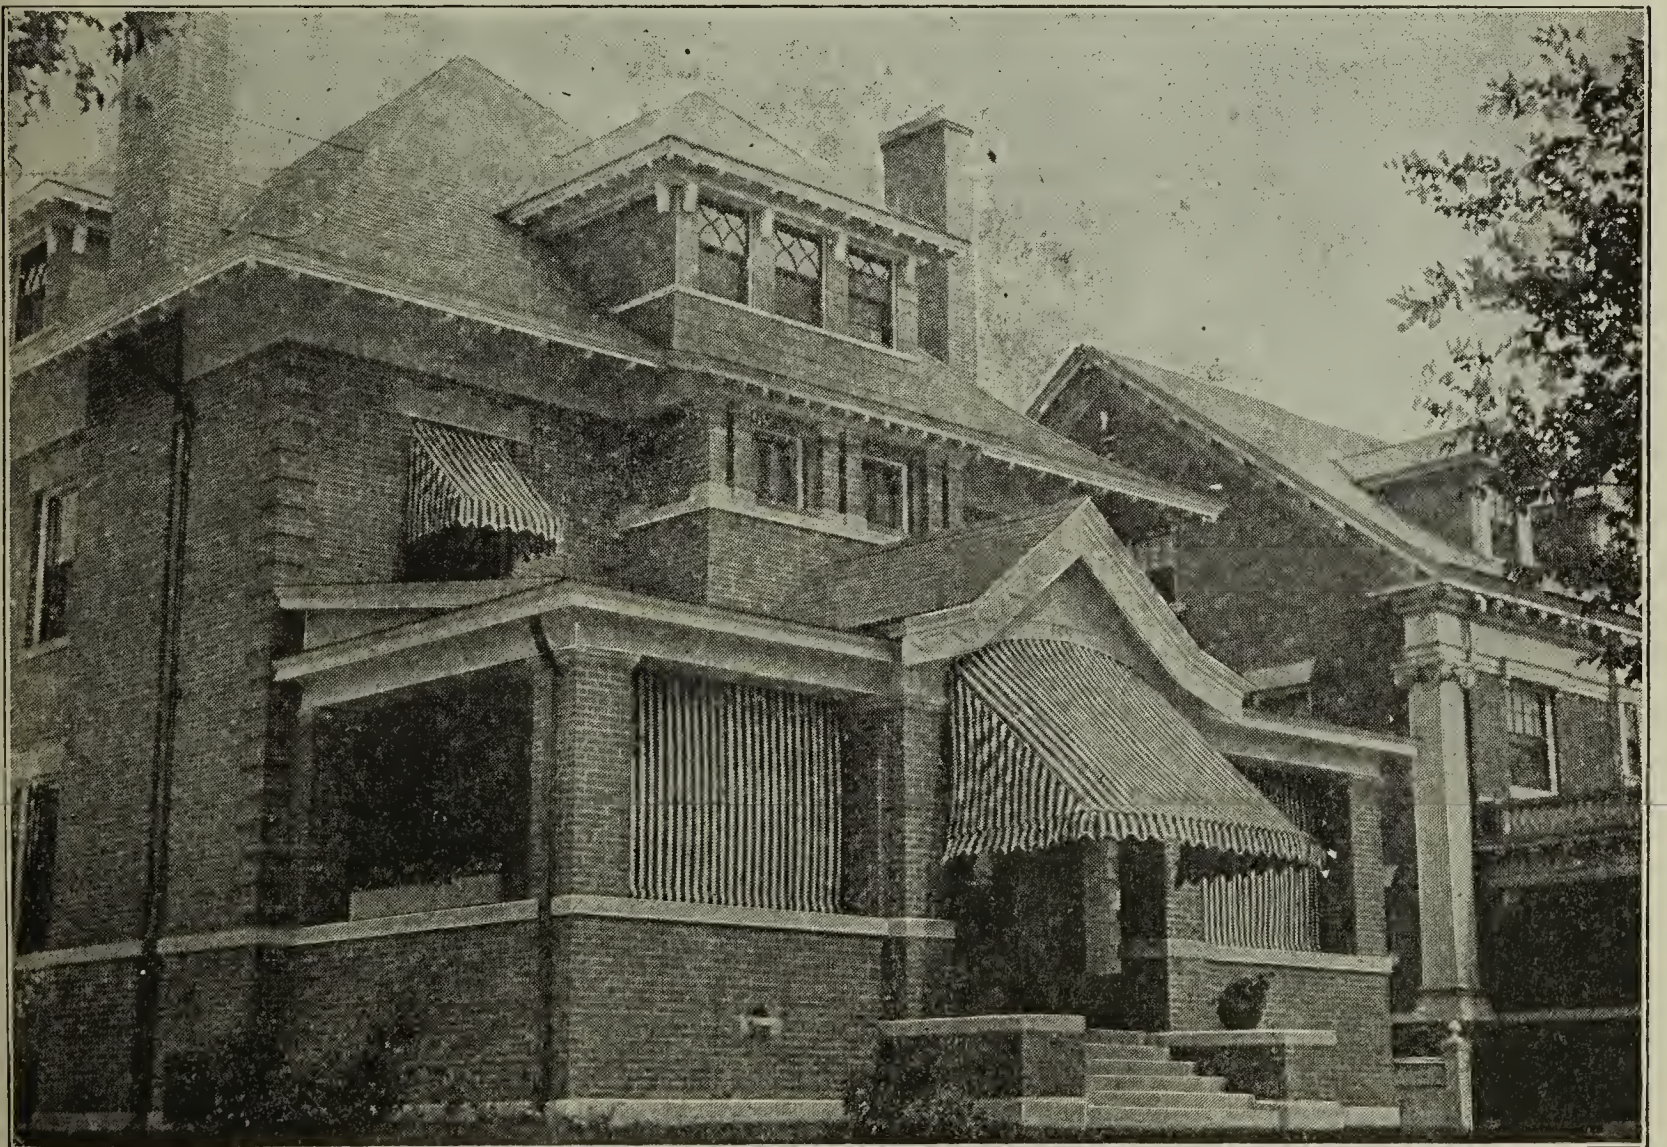

Instructions for Putting Up Window Awnings.

Put cloth on frame. Tie one end of each of the two ropes to front of iron frame in from the corner about 6 to 12 inches according to width of awning. This can be done by cutting two or three stitches in pocket to let rope in (the rest will not rip, as it is lock-stitch). Next put glass pulley underneath where awning will fasten at top, in from right hand corner (looking out of window); the iron pulley same point on other side; both to be in far enough from corner to be in line with where you have fastened rope to front of frame. Put one rope through iron pulley and both through glass, so they will pull down together as shown on drop curtain, cut 5. Pull Awning up. Attach top with screw eyes. Let down in position and fasten back ends.

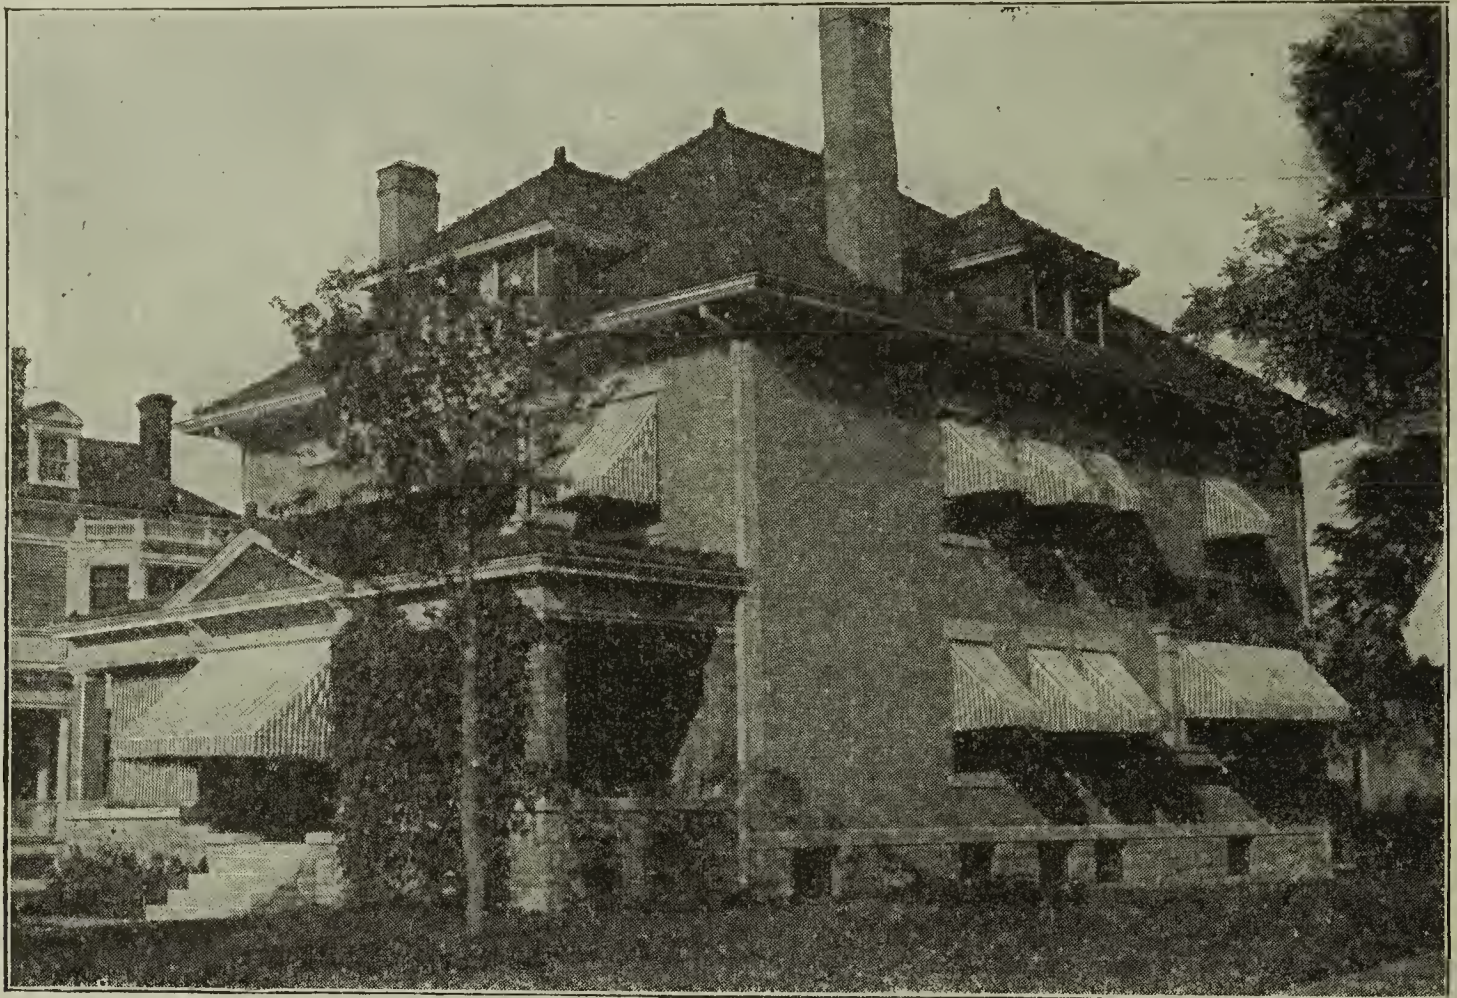

Do not stretch cloth too tight as allowance must be made for shrinkage. If height and base are the same, hinges will be sent for back attachments; if not the same, slide rods will be sent. In that case, upper end of rods should reach up to grommet in lower back corner of cloth.

PORCH AWNINGS.

The advantage of Porch Awnings over Drop Curtains is that they shade the porch without obstructing the view or hindering the ventilation. A porch unshaded on a hot day while the sun is on it, is a very uncomfortable place to be, unless protected by an Awning, but when so protected, is the healthiest and pleasantest place to be found around the house, as you get all the benefits of the sunshine without the oppressive heat, and you also have the unobstructed view.

Porch Awnings are deservedly becoming more popular every year.

Are You Under the Curse, Or Not?

“For as many as are of the works of the law, are under the curse; for it is written, cursed is every one that continueth not in all things that are written in the book of the law to do them.”

Christ hath redeemed us from the curse of the law, being made a curse for us; for it is written, Cursed is every one that hangeth on a tree.”—Gal. 3:10-13.

A Good Time Now and a Good Time Coming.

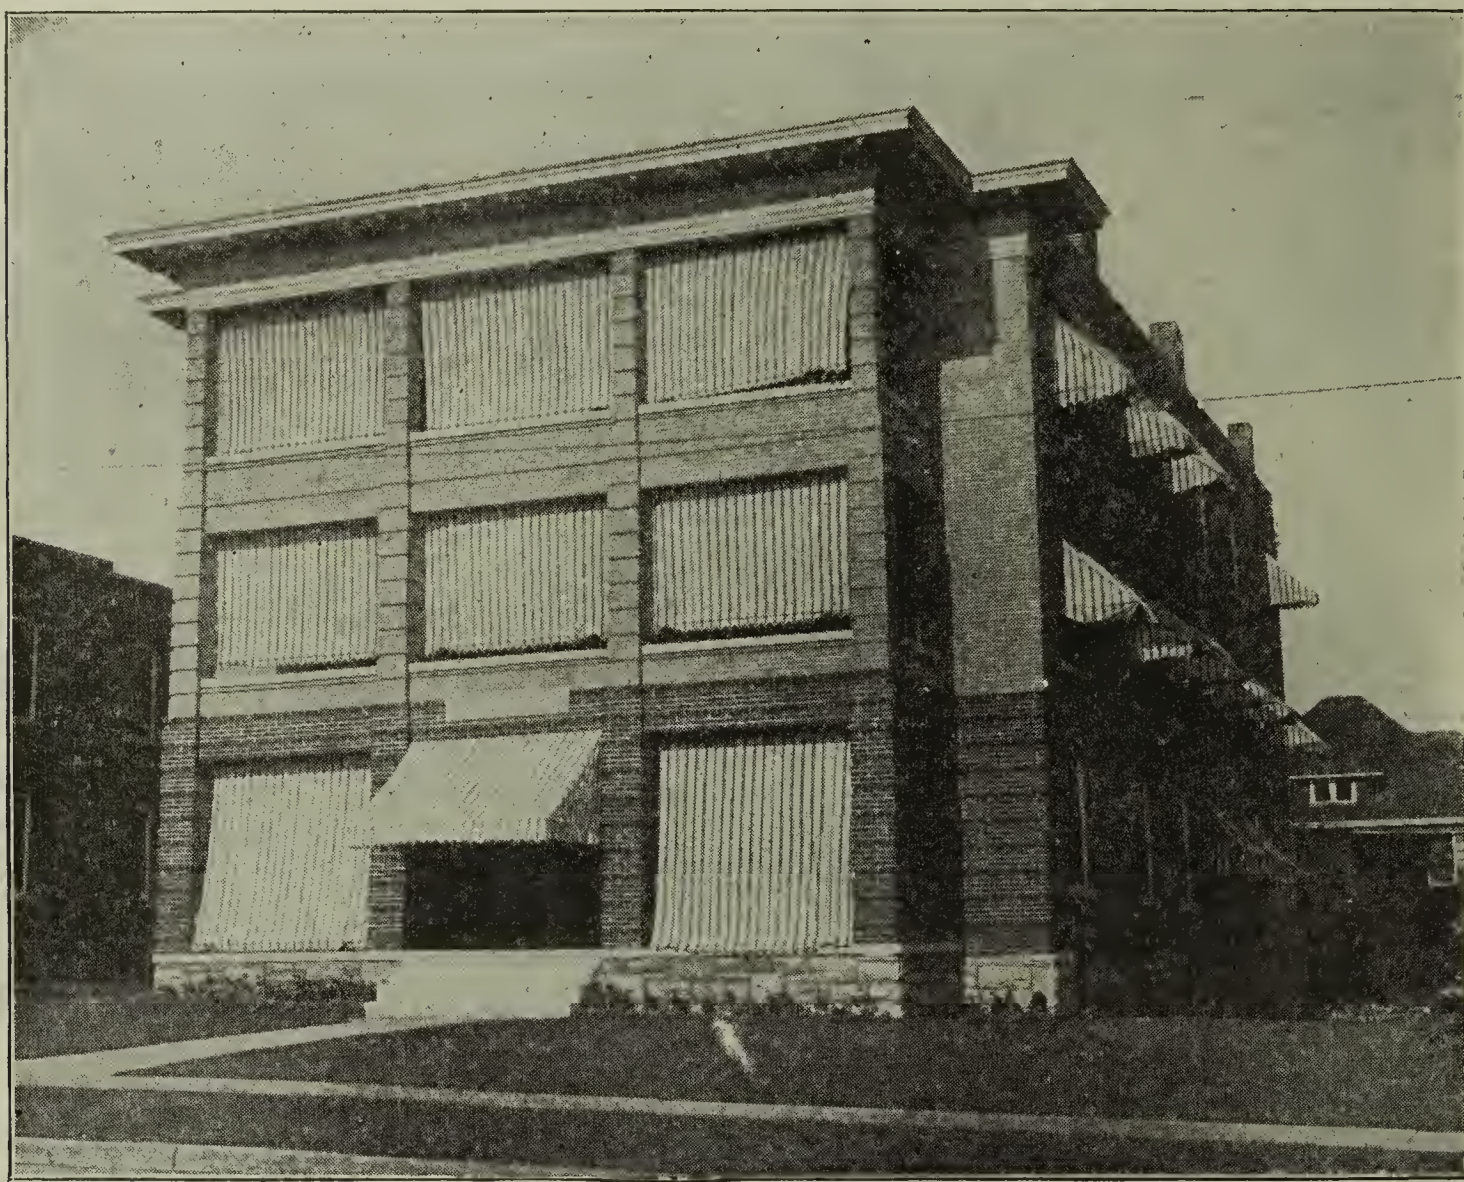

“Only goodness and mercy shall follow me all the days of my life; and I will dwell in the house of the Lord forever.”—Psalm 23:6, R. V.

“In Thy presence is fullness of joy; at Thy right hand there are pleasures for evermore.”—Psalm 16:11.

Which?

“For God so loved the world that He gave His only begotten Son that whosoever believeth in Him should not perish, but have everlasting life.”—John 3:16.

“And whosoever was not found written in the book of life, was cast into the lake of fire.”—Rev. 20:15.

DROP CURTAINS.

For Verandas, Porches, Division of Rooms, etc. The utility and comfort of Drop Curtains has as yet, we believe, been only partly understood and appreciated. Their utility as sun shades have been more or less acknowledged, but that is only a small part of their usefulness.

It may not be generally known that the latest and most approved method of treating tuberculosis and other pulmonary diseases is by sleeping in tents or by having verandas or porches enclosed by curtains. It has been demonstrated that persons so affected do not need change of climate so much, as to make the best of the climate that they have at home. Sanitariums are now built in the east and elsewhere with large porches, where the patients can get plenty of sun in the day and the porches are enclosed by curtains at night for the patients to sleep, and wonderful results are obtained by these methods in the dreaded disease of tuberculosis, so it follows that anyone with a good porch or veranda can make an excellent sanitarium of their own at small cost by enclosing them with Drop Curtains, which can be specially constructed to raise in the daytime to admit the sun, and lowered at night, and fastened to the posts to exclude draft for sleeping rooms. Two or more bedrooms could be made in this way on an ordinary porch.

Drop Curtains are excellent, too, for dividing rooms, where it is not advisable or practical to have permanent partitions, such as large bedrooms, Sunday or other school rooms, where it is advisable to have the classes isolated for awhile and then thrown together again. This can be done neatly and quickly with Drop Curtains and they roll so snugly that they do not disfigure the room when rolled up.

Made with eyelets along the top to attach with screw-eyes, pole in hem at bottom. Cords are attached at top at suitable distance from the ends, and pass down the outside of curtain, underneath the pole, then up the inside of the curtain to and through pulleys, then both cords lead to one end. By pulling on the two cords the curtain will roll snugly to the top. Price, 8c per sq. ft. Price includes rope, screw-eyes, cleat and pole; ready for use. See discount sheet.

For expert testimony concerning Tent Life and Dieting for the cure of Tuberculosis see pages 32-33. For Instructions for Hanging Drop Curtains see page 86.

PORCH AND BALCONY AWNINGS.

Perhaps all have not appreciated the difference between a balcony and a porch. A porch has a roof, as shown above, but a balcony is a stage or platform extending from a building, or it may be the second story of a porch. A balcony has no roof to it, as shown above, so a Balcony Awning is put on the building above the balcony to shade it from the sun and to protect it from the rain.

What we say in regard to the home-grown sanitarium on the next page, can be utilized by anyone who has a balcony, by simply putting up an awning and have it supplied with detachable curtains. A gentleman customer of ours has such a balcony awning enclosed as above, in which he has been cured and proposes to continue to sleep there from henceforth. Add health, comfort and beauty to your home by protecting your windows, doors and porches with awnings.

Are You Resting or Not?

"Come unto Me, all ye that labor and are heavy laden and I will give you rest."—Matthew 11:28.

"We which have believed do enter into rest."—Heb. 4:3.

"But the wicked are like the troubled sea. When it cannot rest, whose waters cast up mire and dirt. There is no peace saith my God, to the wicked."—Isaiah 57:20-21.

What the Bible Says of Itself.

"The prophecy came not in old time by the will of man; but holy men of God spake as they were moved by the Holy Ghost."—2 Peter 1:21.

"All Scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness, that the man of God may be perfect, thoroughly furnished unto all good works."—2 Timothy 3:16-17.

MODERN FLAT BUILDING.

These Modern Flats or Apartment Houses are a product of the latter part of the 19th century, and the first part of the 20th, and are designed to furnish the most luxurious home, fitted with every convenience and luxury by the landlord, thus making life as easy and comfortable as it can possibly be made for the tenant.

A strictly modern flat is furnished with awnings for the doors, windows and porches, which are supplied by the landlord.

Landlords or agents who provide them should write us for samples of stripes and prices, as we make special rates for large jobs, as well as having a larger and more attractive line of stripes than are usually found with local awning makers.

You May Reject It, Once Too Often.

The Lord God of their fathers sent to them by His messengers, rising up betimes and sending; because He had compassion on His people, but they mocked the messengers of God, and despised His words, and misused His prophets, until the wrath of the Lord arose against His people, till there was no remedy."—Chronicles 36:15-16.

Man's Righteousness Filthy Rags.

"We are all as an unclean thing, and all our righteousnesses are as filthy rags; and we all do fade as a leaf; and our iniquities like the wind have taken us away."—Isaiah 64:6.

"For when we were yet without strength, in due time Christ died for the ungodly. For scarcely for a righteous man will one die; yet peradventure for a good man some would even dare to die. But God commandeth His love toward us, in that while we were yet Sinners, Christ died for us.—Romans 5:6-8.

MODERN OFFICE BUILDING

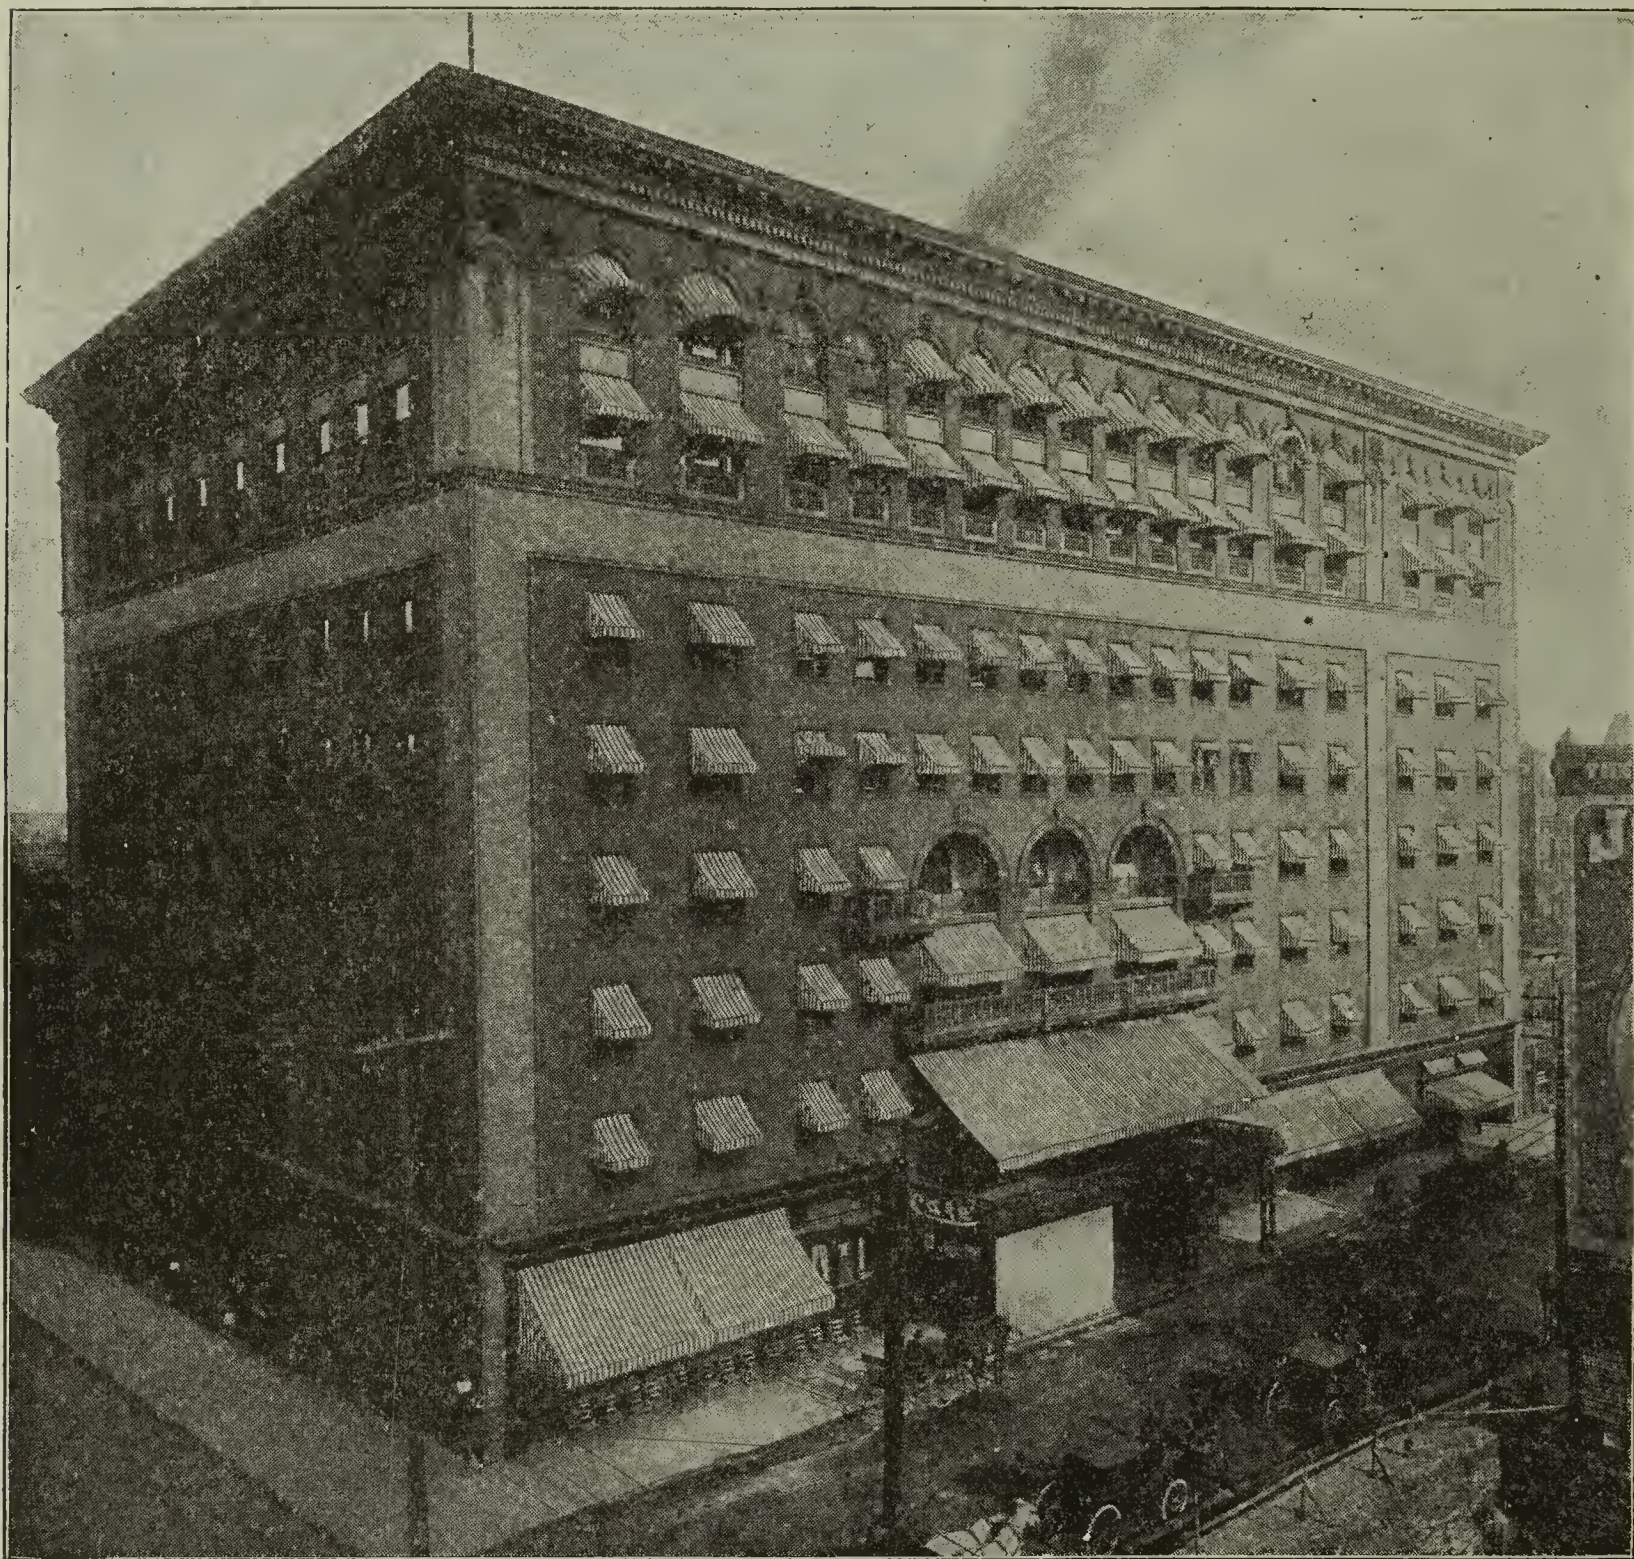

These buildings are to the business and professional man what the "Strictly Modern Flat" is to his wife. Offices and rooms fitted in elegant style, steam heat, electric and gas lights, water, elevator and janitor service, and last, but not least, the windows fitted with awnings to make them cool and comfortable during the hot days of summer.

The above picture shows one of our jobs, exhibiting the style, fit, uniformity and neatness of our work.

Special prices are made to agents and landlords who want a number of awnings.

The rich man said, "I will say to my soul, Soul, thou has much goods laid up for many years; take thine ease, eat, drink and be merry."

But God said unto him, "Thou fool! This night thy soul shall be required of thee."—Luke 12:19-20.

HOTEL BALTIMORE, KANSAS CITY.

Showing Large Awnings over Dining and Reading Rooms, and Drop Curtains on Porch on First Floor. Large and Small Balcony Awnings on Second and Third Floors, and Small Awnings on the Suites of Rooms on West Front. This is one of the sample jobs that we put up during the past summer.

Hotel Keepers and Owners, Tenants or Managers of Large Factory, Mercantile, Hospital, Sanitarium, Educational or other Buildings will find our facilities and capabilities equal to their needs, and our prices easy on their Pocket Books for these kinds of Jobs.

CARPET COVERS AND FLOOR CLOTHS.

For temporary or permanent use, for covering carpets or floors in Residences, Churches, Lodge, Society, Dance, Music or other halls. We make these of White, Brown or Striped Duck, of light or heavy weight goods, as may be required. Expensive carpets are often damaged or ruined in a residence, hall or church by some special party, gathering or convention, that might have been protected at small expense by a cover.

Send size of room and kind of cover needed, whether for temporary or permanent use, and we will send prices and samples.

We also make them to rent for temporary use, any size from a parlor to a large hall. Send size for prices.

Will It Pay?

..

"Then I looked on all the works that my hands had wrought, and on the labour that I had laboured to do: and behold all was vanity and vexation of spirit, and there was no profit under the sun."—Ecclesiastes 2:11.

"What shall it profit a man, if he shall gain the whole world, and lose his own soul."—Mark 8:36.

Scripture Texts. 75 cents each, net. Order by number.

These Texts are painted on white muslin with red borders at sides, and rollers at top and bottom. Size about 4 ft. square. They are especially intended for use in Gospel Tents, but are excellent for hanging in Halls, School Houses, Stores, Workshops, Mills, Saloons, Barber Shops, Railroad Camps, Show Tents or any place where they can be seen by unsaved people. They are the Gospel which is the power of God unto salvation to every one that believeth.

The Prize or the Penalty, Which Will You Take?

If you were offered One Hundred Thousand Dollars Cash, with the alternative that if you did not accept it, you would be sent to the Penitentiary for Life, how long would it take you to decide in favor of the cash? You say there is no such fool in the world that would not take the cash instead of the prison. And yet here you are and you have incurred an infinitely greater Penalty than penitentiary for life, and yet God in mercy and grace not only offers you a full and free pardon from the penitentiary, but if you accept His grace will give you an immeasurably greater Prize than one hundred thousand dollars. It is offered free as the air you breathe, and you must accept the Prize or incur the Penalty. There is no alternative, and yet you are going along indifferent from year to year as if there was no Penalty to be avoided, and no Prize to be gained. Ordinarily you would pass the above list of texts as if they were of no concern to you whatever, and yet your weal or woe for eternity is bound up in the truth they contain. If they are studied even casually it will be seen that what we have asserted above is fully substantiated.

Text No. 1 Shows the Prize and the Penalty.

Text No. 2 Shows the divine necessity of the new birth.

Text No. 3 Shows The One that does the work.

Text No. 4 Shows that it is not of works by us, but by faith.

Text No. 5 shows the price paid before the Penalty could be remitted and the Prize gained.

Text No. 6 Shows the source of this grace and the universal scope of the penalty as well as the pardon.

Text No. 7 Asks the unanswerable question, What good will it do you if you get all that you are going in for, and lose your soul?

Text No. 8 Shows that God loved and Christ died for Sinners, to save them from God's penitentiary, The Lake of Fire.

Text No. 9 Answers fully in eleven words the important question, What must I do to be saved?

Text No. 10 Again shows the present status of the Prize and the Penalty.

Text No. 11 Shows there is one go-between, and only one, between God and man, and only one way to God.

Text No. 12 Asserts that if you hear the word of the Son and believe the Father, you have the beginning of the Prize and will never incur the Penalty.

God’s Law Says “THOU SHALT NOT STEAL.”

And God’s Word says, “Cursed is every one that continueth not in all things which are written in the book of the law to do them.”—Galatians 3:10.

If God will make good His curses, as well as His blessings, and He surely will, then surely it is very unwise and will be very disastrous in the long run to steal; also it is a bad business policy as well as wicked. So don’t let us steal any more, for there is no present profit in it, and it will be an eternal loss in the future. Well, you say, Who is stealing, anyway? We are afraid it would be nearer the truth if we were to ask, “Who isn’t stealing?” We are afraid there would not be many business hands go up if the truth were told. These thoughts were brought to our mind by reading some letters before us. One from a customer, among other things, says: “I today weighed one of your 10 x 14 10-oz. covers with one of my competitor’s 10 x 16 10-oz., and they both weighed 12 lbs.” By looking at the bottom of this page you will see that 12 lbs. is what a 10 x 14 10-oz. wagon cover should weigh, so when a cover, marked 10 x 16 10-oz. only weighs 12 lbs., when it should weigh 13¾ lbs., why, someone has made a mistake, or, they have been stealing.

Another letter before us from an Evangelist who had bought a large tent of us, says: “In my meeting under my big tent at Clarendon last fall, one of the largest hardware dealers in the Panhandle of Texas told me of a fellow who came along wanting to sell him some paulins, but he told the salesman he was stocked up; but on hearing his price, which was much under what he had been buying, for that weight, he asked the salesman if he was sure they would weigh out as they were marked. He answered him they would. But when they came they were about three pounds each under weight; so he bundled the whole lot up and returned them to the house. And since then he says: “I’ve been trading with Baker & Lockwood, for I can depend on them. If it is marked 8-oz., it’s that way. He’s always your advertisement. It pays to be square.”

Very truly yours, L. P. L.

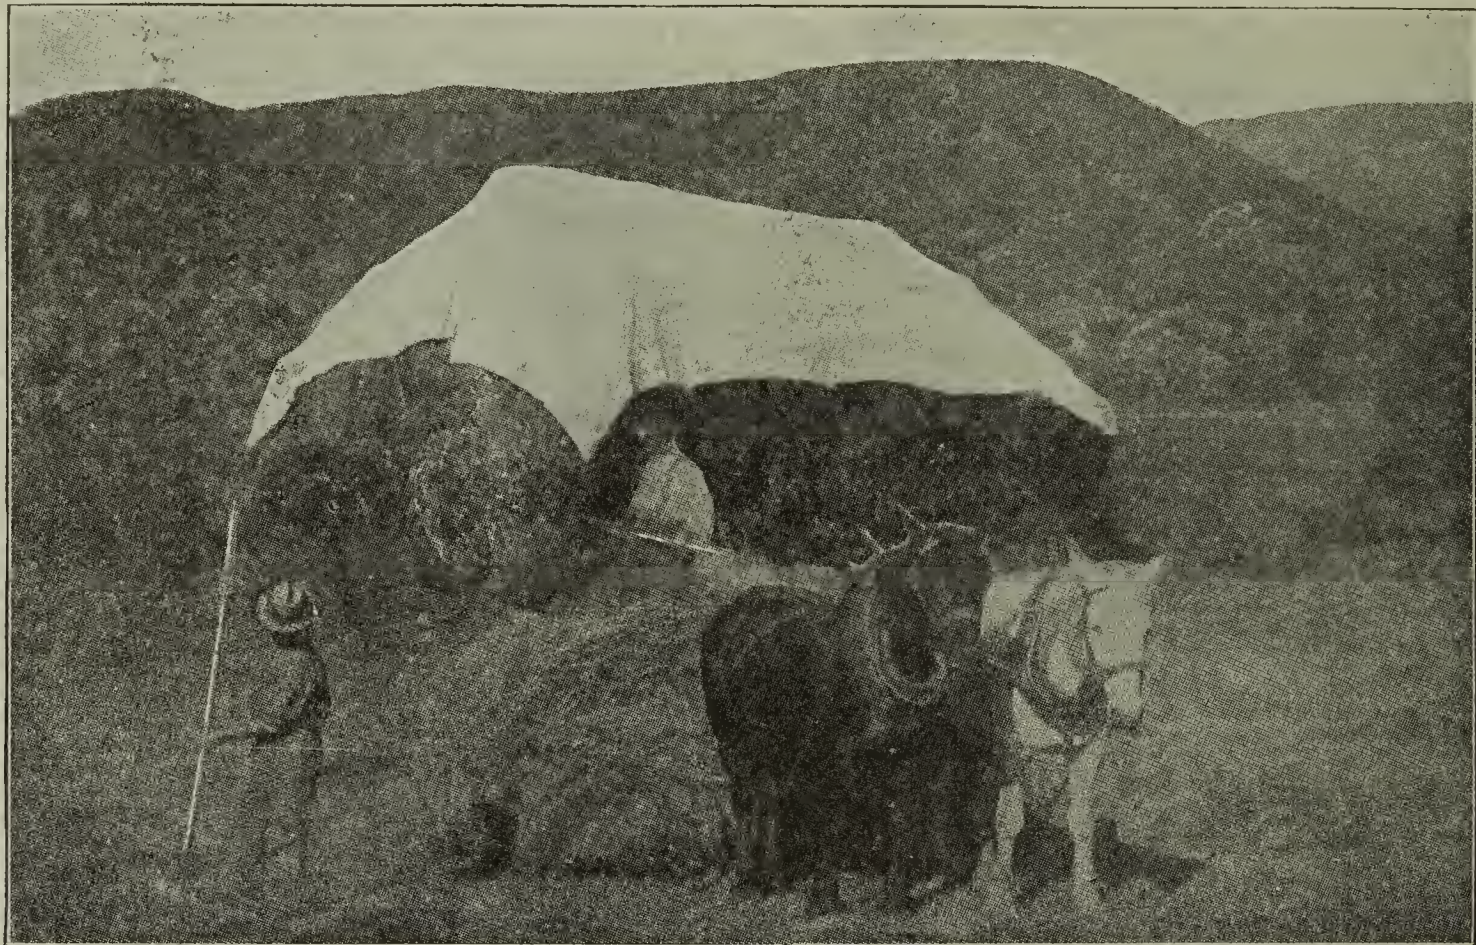

It will be observed that the above were honest men, and would not knowingly sell dishonest goods. We expect if the truth was known, that is one reason that they are **Large Dealers**. The people find them out sooner or later.

It does not Pay to Steal; so let us take the advice of the Good Book: “Let Him That Stole Steal No More.”—Ephesians 4:28.

WIDE COTTON DUCK

We are agents for the Consolidated Cotton Duck Company and can sell you Wide Cotton Duck as cheap as it can be sold by anyone. Large users of these goods sometimes think that they can be bought cheaper by going farther East, but it will be found that you are in on the ground floor by buying of us, and as we are nearer to Western, South and North-western buyers, it will be a saving of time to buy of us. We append a list of widths and weights below that are most commonly used. These we aim to keep constantly in stock, and sell by the roll of about 100 yards, or cut and sell by the yard. Other widths and weights can be procured by the roll only, in from one to two weeks, generally. Although sometimes the mills are behind with their orders, and it takes longer.

To customers who live East, North or South-east of Kansas City we can deliver from Chicago or St. Louis at about 1 per cent cheaper.

Salvation Delivered Free of Charge.

“For the grace of God that bringeth salvation to all men hath appeared.”—Titus 2:11.
“By grace are ye saved through faith; and that not of yourselves; it is the gift of God; not of works, lest any man should boast.”—Ephesians 2:8-9.

Where Will You Be Tomorrow.

“Boast not thyself of tomorrow; for thou knowest not what a day may bring forth.”—Proverbs 27:1.
“Go to now, ye that say, today or tomorrow we will go into such a city, and continue there a year, and buy and sell and get gain; whereas ye know not what shall be on the morrow. For what is your life? It is even a vapour that appeareth for a little time, and then vanisheth away. For that ye ought to say, ‘If the Lord will we shall live, and do this or that.’”—James 4:13-15.

Cotton Duck and Drill For Sale to the Trade.

We sell Standard, 6½-oz. and 8-oz. Tent Drills, also Single Filling, Double Filling and Army Duck of all weights by the yard, bolt, bale or carload.

Manufacturers and Users of and Dealers in Duck and Drills will find it to their advantage to get our prices and deal with us, for the reason that we cut up for our own use large quantities of Ducks and Drills, so that you can get just the number of yards that you require for any particular job, and, of course, there are many dealers in these goods that do not break a bale.

In the present unsettled state of the Cotton and Duck Market we find it impossible to catalogue our prices, as not only is the price of Cotton high and unsteady, but the Duck Mills are most of them sold ahead far into the year 1906, and there is a great danger of a much greater Duck Famine than last year, when Duck was so scarce and hard to get. This will probably make it hard to insure any particular brands of ducks for any length of time, but we will endeavor to be to the front with price and quality. We have, at this writing, a large supply ordered, and expect to be able to serve our friends to their advantage.

We are also jobbers of Fancy Ducks for the trade. Black, tan, red, blue, brown, yellow, purple, plaid, etc., of various widths and weights.

We can also sell you Blanket Lining at the cheapest market rates.

KITCHEN CABINETS.

No.12 Safe on No. 7 Cabinet

No. 6 Cabinet

Our line of Kitchen Cabinets and Safes represent the standard of excellence in this part of the country. The accompanying cuts give a pretty good idea. The Cabinets have hardwood frames, white wood tops and dough boards, and are thoroughly constructed in every way. We have compared them with some other cabinets offered, and, in the matter of glued joints alone, we have found that these cabinets have from a dozen to thirty more glued joints than the others. The Safes are of the same excellent construction and are finished to match the cabinets. The following are the dimensions:

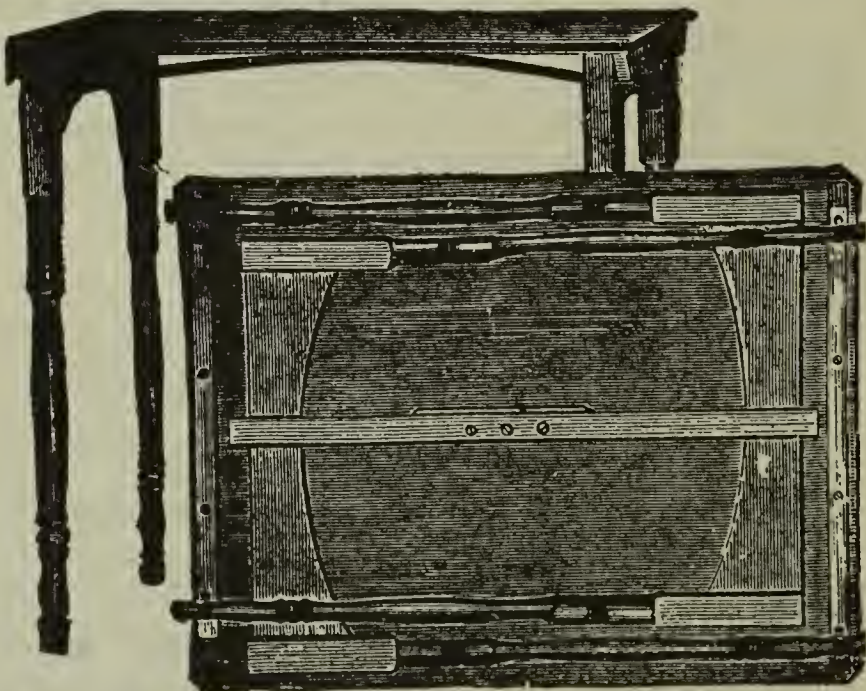

Price, each.
No. 7 Cabinet, 28x28 top, 2½-inch legs, 17x22-inch dough board, two 50-pound flour bins, one of which is divided into two compartments....\$5.00
The No. 6 Cabinet has a 26x42-inch top, dough board, and two 25-pound flour bins. This Cabinet also has 2½-inch legs 3.75
The Safes are all the same size, 45 inches wide, 49 inches high and 12 inches deep, with three shelves. They are designated as follows:
No. 9 Safe has wood panel doors, with two drawers..... 5.35
No. 12 Safe has glass doors, with two drawers 6.05
Two Cabinets, or one Cabinet and one Safe, can be packed together.
No charge for crating if two pieces are ordered.

"And many other signs truly did Jesus in the presence of His disciples, which are not written in this book: But these are written, that ye might believe that Jesus is the Christ, the Son of God; and that, believing, ye might have life through His name."—John 20:30-31.

THE K. C. IMPROVED COT.

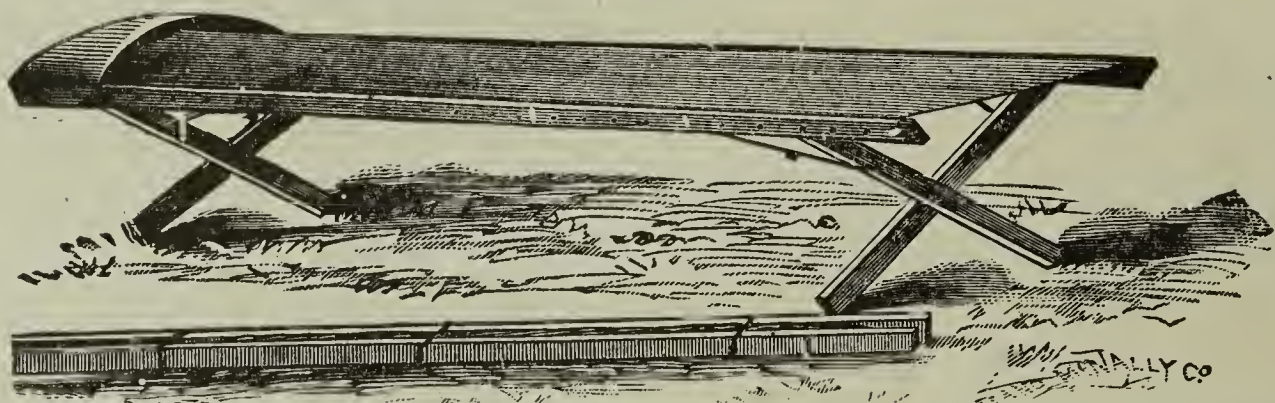

This cot has turned legs with double malleable iron braces at each leg, making it strong, light and neat. Is covered with 10-ounce duck.

This is the cheapest and best common cot in the market. Dealers will find this a salable article, and we would advise you to try a sample dozen or half dozen.

Price each\$1.00

NO. 40, THE U. S. FOLDING CANVAS COT.

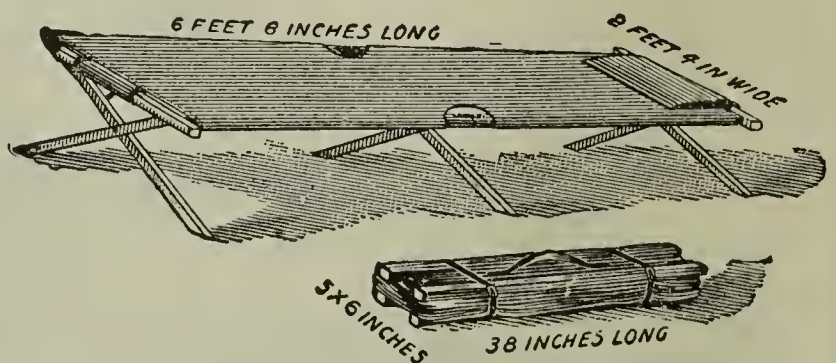

This cot is covered with 10-ounce duck. It is the strongest, lightest and most compact folding cot made. It is easier opened and closed, and folds in less space than any other cot. The duck will wear longer and the legs stand more strain, and will stand upon more uneven ground because of not being stretched with a stretcher between the legs, which we consider a positive injury to any cot, as it injures the wear of the canvas and weakens the legs, by the fact that, when the duck becomes stretched from use, the whole weight and strain comes upon the stretcher instead of being evenly divided over the whole cot.

It folds without separation of parts. Dimensions, when folded, 6 feet x 5 in. x 2 in. Weight, 15 pounds.

Price, covered with 10-ounce. 29-inch duck.....\$1.50

The Soldiers' Friend CAMP COT OR BED.

It folds into a neat package 5x6 inches by 3 feet 2 inches. It is the strongest, lightest and most compact double-fold Camp bed made. It is and easier and quicker to open and close, and folds in less space than any other Cot.

Our Cot Covers are made from 12-ounce double fill brown duck. All our Camp Bed Frames are made from best selected hardwood.

COMBINATION FOLDING CAMP CHAIR AND TABLE With Desk Attachment.

Large cut shows a table. By removing the front half of the top and turning back the rear half a solid-back chair is made. By seating himself in the chair and then placing the removable half of the top again on the arms, the user has before him a desk for writing, as shown in the smaller cut.

If a high back chair is wanted, the front half of the table top can be added to back.

This chair folds on rivets like any camp chair, and takes up no more space. Finished golden oak. Is solid and durable in every respect.

Price, per dozen, \$27.00.

CAMP STOVES.

The top and sides of these stoves are cut out by dies, doors (fire and oven) are raised and embossed by drop-press, corners are double seamed, top and bottom are counter sunk to keep sides in place, a feature in no other camp stove in the market. Bottom and top are pinned on, making one of the strongest camp stoves in the market. They are made of No. 27 steel. The 2-hole stoves weigh 10 pounds each, the 4-hole weigh 13 pounds each.

Size 2-hole, 23 inches long, 12 inches high, 12 inches wide.

The Bible.

This Book contains—The mind of God, the state of man, the way of Salvation, doom of sinners, and happiness of believers. Its doctrines are holy, its precepts are binding, its histories are true, and its decisions are immutable. Read it to be wise, believe it to be safe, and practice it to be holy. It contains light to direct you, food to support you, and comfort to cheer you. It is the traveler's map, the pilgrim's staff, the pilot's compass, the soldier's sword, and the Christian's charter. Here Paradise is restored, Heaven opened, and the gates of Hell disclosed. Christ is its grand subject, our good its design, and the glory of God its end. It should fill the memory, rule the heart, and guide the feet. Read it slowly, frequently, prayerfully. It is a mine of wealth, a paradise of glory, and a river of pleasure. It is given you in life, will be open at the Judgment, and be remembered for ever. It involves the highest responsibility, rewards the greatest labor, and condemns all who trifle with its holy contents.

Salvation By Faith.

“It pleased God by the foolishness of preaching to save them that believe.”—1 Corinthians 1:21.

“For I am not ashamed of the gospel of Christ; for it is the power of God unto salvation to every one that believeth; to the Jew first and also to the Greek.”—Romans 1:16.

Some one will knock when the door is shut,
By and by, by and by,
Hear a voice saying, I know you not,
Shall you? shall I?
Some one will call and shall not be heard,
Vainly will strive when the door is barred,
Some one will fail of the saints' reward,
Shall you? shall I?

Forgiveness of Sins as a Gift.

"The God of our fathers raised up Jesus, whom ye slew and hanged on a tree. Him hath God exalted with His right hand to be a Prince and a Saviour, for to give repentance to Israel, and forgiveness of sins."—Acts 5:30-31.

The Lord Our Righteousness.

"No weapon that is formed against thee shall prosper; and every tongue that shall rise against thee in judgment thou shalt condemn. This is the heritage of the servants of the Lord: and their righteousness is of Me saith the Lord." Isaiah 56:17.

"Saved in the Lord with an everlasting salvation: Ye shall not be ashamed nor confounded world without end."—Isaiah 45:17.

BLIZZARD STORM FRONT.

The Blizzard Adjustable Storm Front will fit any buggy. It is held on by means of an elastic cord and two hooks at the top and an elastic cord and two hooks at the dash, and a clamp at each side, which fastens to the bow like a clothes pin to a clothes line; the sides can be opened or closed with gloves on. It closes up a buggy entirely and keeps out all rain and wind.

The window is large—7x20 inches—and affords a perfect view, and is made of transparent material that will not break, and is not affected by the weather. It is made and reinforced at all places liable to strains. Folds up and can be put under the cushion.

PROTECTOR STORM FRONT.

Storm Protector is fastened to the inside of the top, preventing rain from running in.

The lookout light is brought closer to the driver, giving a broad range of vision, and being protected by top, does not become covered with snow and water obstructing the view.

It can be put up quickly and from the inside of buggy.

It can be released instantly in case of accident, and when dropped down is entirely out of the way, affording ample room for quick exit.

SECOND-HAND KANSAS CITY TWO AND THREE-ROOM FAMILY TENTS.

The above picture shows one of our new style Family Compartment Tents, made for one center pole and eight wall poles. These tents are made square hip roof style. Corners between peak and eave are reinforced with canvas strip.

Walls on three sides are attached. Front wall has opening in center and is made to hook back when not in use.

The awning extension is no part of the wall, it is extra, and it is not necessary to lower awning to close the tent. It is six feet deep and is the same width as tent.

The partition is made of sheeting, is same height as the wall of the tent.

Parties who attend Chautauquas, Assemblies, Camp Meetings, Reunions, and those who spend their vacation fishing, hunting or camping will add greatly to their pleasure and comfort and at the same time save money by using one of our K. C. Family Tents.

We have a large stock on hand, all made new this year, that have been used only ten days, and for all purposes are as good as new.

SECOND-HAND THREE AND FIVE-ROOM FAMILY TENTS.

These tents have been used at Encampments, Chautauquas, Campmeetings, etc.

Walls are six feet high. Part of wall on each side is made to raise and form awning. Partitions are made of sheeting and are of the same height as walls. Tops have reinforced canvas strips between peak and eaves, at corners, once between on ends, and twice between on sides.

If you would like to own and enjoy the pleasure of a beautiful, stylish and comfortable summer home, buy one of our Family Tents.

SECOND-HAND OBLONG, ROUND END TABERNACLES AND SHOW TENTS.

We have endeavored to describe the following second-hand round end tents very minutely. To those who have used tents any length of time this may seem quite superfluous; but there are others who are not so well posted along these lines, and for their benefit we have described tents in full, so that it will be easy for them to understand just how these tents are constructed. We will consider it a pleasure to answer any questions relative to any tent or tents described.

SUPPLEMENT TO PAGE 88, 1906 CATALOGUE.

A lady writes from the Philippine Islands as follows :

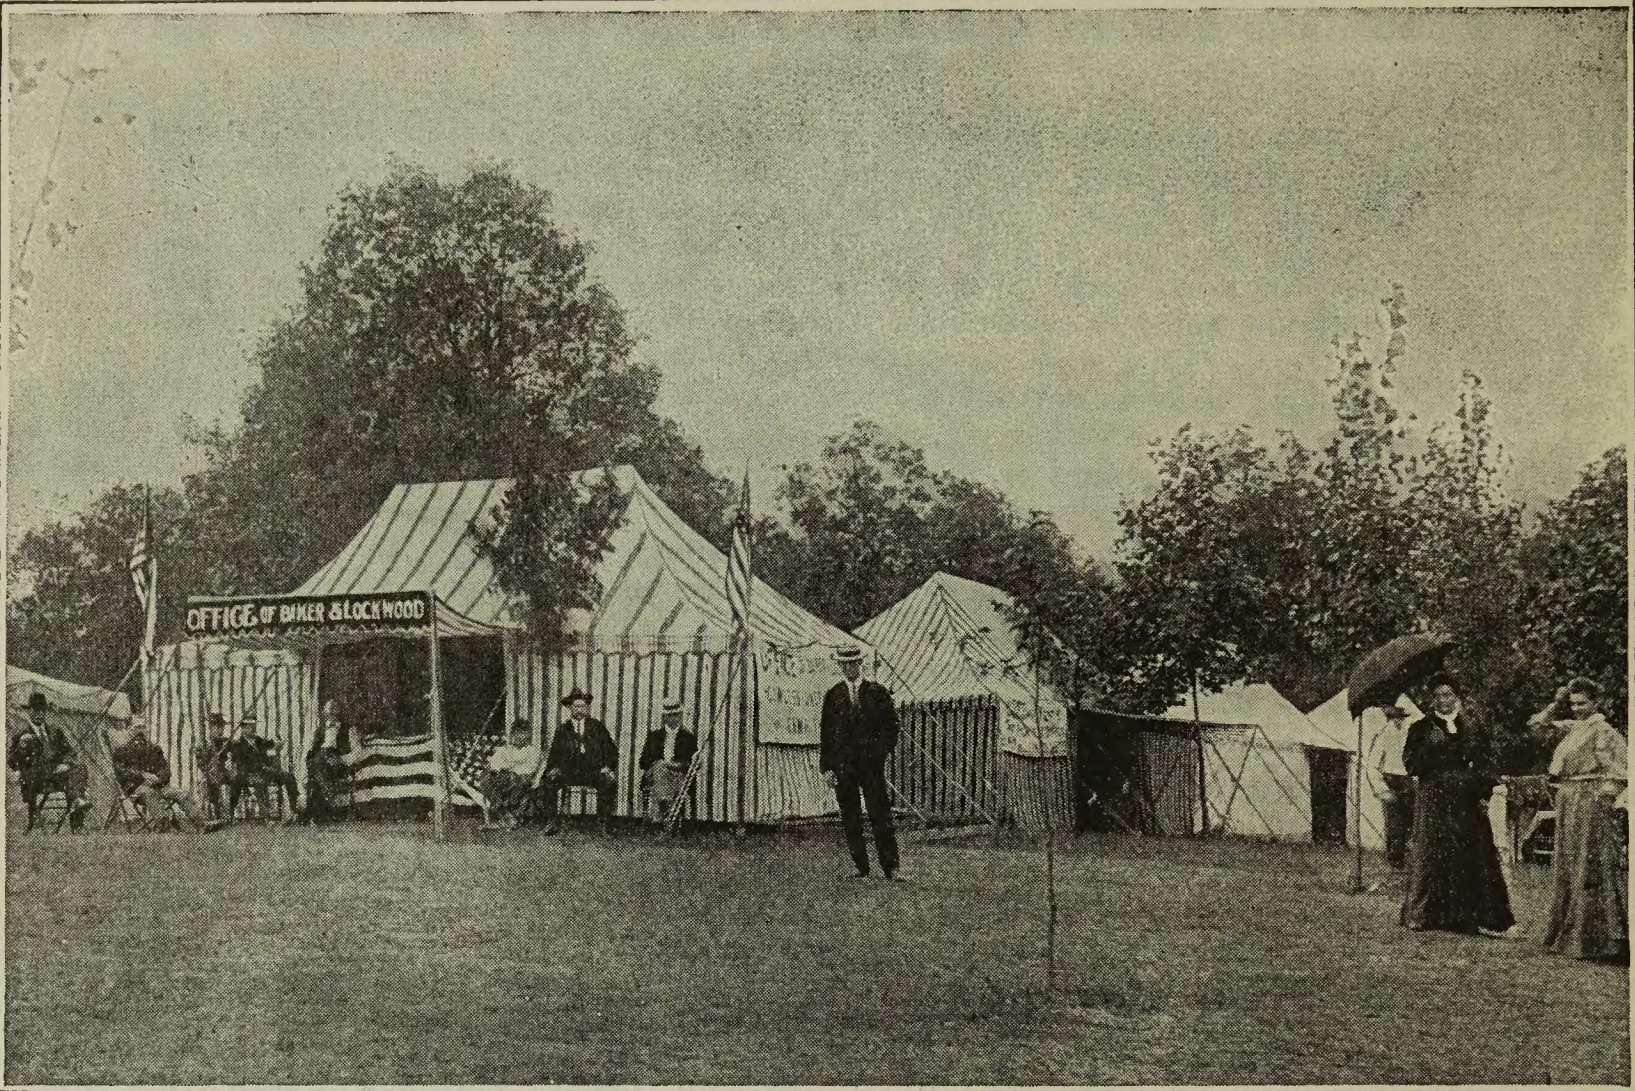

“I am employed in the office of the Insular Purchasing Agent, and accidentally the other day, in looking over some catalogues, I found one from your firm. I read the notations at the bottom of the pages with much interest, and then read page 88, and looked at the window marked ‘Baker’ and wondered how it all came about.” “If the information would not inconvenience you, I would like to hear about it.”

The information asked for above, is appended below.

“About the beginning of September of the year (1872), I was in much trouble of soul for about two weeks, but with no one to speak to me and tell me how to be saved. After being at a prayer meeting one night, and while going home in deep distress, I said to myself, ‘I am going to do what I can to be saved tonight.’ On arriving at home, about ten o’clock, I went to my bedroom, a little 8x10 room, at 96 S. Desplaines street, Chicago. I locked the door, got down on my knees by the bed, and began to pray and weep and ask God for Christ’s sake to forgive my sins. This lasted probably half an hour. I was expecting all the time to feel some change to come over me, but I did not. I was disappointed and I arose from my knees in great distress, wondering what could be the matter. I came to the conclusion that I was a hypocrite, so I went to my knees again and told the Lord, if I was a hypocrite, to make me sincere and what I did not know to teach me, and still the good feelings did not come as I expected. I again arose, thinking there was no hope for me. I then opened the Bible and my eye fell on that blessed sentence, ‘Him that cometh to me I will in no wise cast out.’ (John 6:37.) I began to reason, ‘Well, I did come as well as I could, as well as I knew how, and He says, ‘Him that cometh to Me, I will in no wise cast out.’ That Scripture then flashed on my memory, ‘Heaven and earth shall pass away, but My word shall not pass away.’ I got rest right there. I saw it was trusting him through His word, and my thought was, ‘If I was to die to-night and stand before God, I could say, Jesus said, ‘Him that cometh to me I will in no wise cast out,’ and I came as well as I knew how, and I have trusted Him.’ At eleven o’clock that night I went to bed knowing that I was saved, knowing that I had rested my soul on the eternal Word of God, and I realized the promise of the Lord Jesus, Who said, ‘Come unto me all ye that labor and are heavy laden and I will give you rest.’ (Matt. 11:28) And the prayer that my dear mother wrote in a little diary the day I was born was answered. The entry and prayer was as follows: ‘July 22nd, 1840. This day delivered of a son, Caleb Jason. The Lord have mercy on my son.’ I, a poor lost sinner, that night obtained mercy through the precious blood that was shed for me on Calvary’s Cross. This was thirty-five years ago, and I am still resting on the same unchanging word of the living God, and my prayer for each unsaved one who reads these few lines is, that you may be led to see your need of this salvation and to believe in the Lord Jesus Christ to the salvation of your soul.” I am

Yours, through Grace,

Kansas City, Mo. C. J. BAKER.

TENTS AND CAMP FURNITURE FOR RENT.

We desire to call your attention to our renting department.

We have for rent large oblong and round tents capable of seating from 100 to 10,000 persons, for meetings, conventions, political gatherings, skating rinks, etc., or for use as show rooms at expositions, fairs, etc.

We have also large and small "family" and "wall" tents, cots, blankets, sheets, pillows, tables, chairs, camp stools, gasoline lamps, etc., as shown in catalogue, to rent for military encampments, conclaves, camp meetings, Sunday school assemblies, etc., or for small camping or sporting outfits, candy, refreshment, or sleeping tents for special occasions, to rent either by day, week or month. Also fancy or plain, large or small tents, with tables, chairs or lamps.

Parties requiring medium or large outfits will find it advisable to make their arrangements early. Please send for estimates, giving quantity and kind desired, and stating at what date and for what length of time required.

Our standard sizes of wall tents that we keep in quantities are 9½x12 and 12x14.
